

Grand River Dam Authority's Electric Express

All aboard the Electric Express ...

Students get plugged in to learning about electricity with Plugsbee, the “know-watt all” conductor of the **Electric Express**.

The **Electric Express** is a program that complements student’s introduction to basic principles of electricity. GRDA provides safety presentations, hands-on activities and an **Electric Express** journal to enhance the learning experience and promote electric safety.

The program can be tailored to various classroom needs and is a great way to introduce electricity basics to your students.

For more information, contact GRDA Communications Specialist Shannon Randolph. srandolph@grda.com; (918) 256 5545.

Schedule a speaker ...

Looking for a speaker for your civic group or community organization event/program?

The Grand River Dam Authority can provide an informative and entertaining presentation packed with plenty of pictures and graphics that help to tell our story.

GRDA's history, scope, broad mission, operations and economic impact are all subjects for our presentations.

For more information contact GRDA Corporate Communications Director Justin Alberty at (918) 256 5545 or jalberty@grda.com.
