POLICY NO. 1-1

FORMULATION, ADOPTION, REVIEW
AND DISTRIBUTION OF BOARD POLICIES

I. OBJECTIVE: To establish the basis for the formulation, adoption, review and distribution of GRDA board policies to effectively achieve the objectives, goals, plans and programs of the Authority.

It is through development and adoption of written policies that the board may exercise leadership and direction toward successful operation of the Authority.

II. POLICY:

A. Accountability

The Board of Directors is responsible for the development and management of board policy. The board policies will comply with the requirements of state and federal law, the Authority Bylaws, and Bond Covenants.

Should there be a conflict between policy and Authority Bylaws, Bond Covenants or requirements of state or federal law on like subject matter, such conflicting policy shall yield.

B. Scope

1. Development of Policies

While reserving unto itself final responsibility and authority to determine board policies, the Board of Directors welcomes the judgment and assistance of the CEO and GRDA employees as set forth herein in the development of policies.

The CEO and GRDA employees may initiate proposals for new policies and revision or repeals of existing policies. Proposals shall be given to the CEO or Chairman of the Board of Directors. Proposals will be referred to the board Policy Committee for consideration.

2. Policy Action

Adoption of new board policies and revision or repeal of existing board policies are the sole responsibility of the Board of Directors.

Adoption of new board policies or revision or repeal of existing board policies may be accomplished by a majority vote of the Board of Directors at any regular or special meeting, provided written notice of the proposed policy, revision or repeal shall have been given each Director at a regular board meeting prior to the meeting at which the proposed adoption, revision or repeal is to be considered.
3. **Policy Review**

The CEO is given the continuing responsibility for calling the board's attention to all policies considered to be needed, revised or repealed and for standardization, attestation and distribution. All employees are given the continuing responsibility for calling the CEO's attention to all policies needed to be implemented, revised or repealed.

4. **Policy Distribution**

The CEO is given the continuing responsibility for making available up-to-date copies of all policies to each member of the Board of Directors and GRDA employees.

5. **Personnel Manual**

The CEO is responsible for developing and publishing a personnel manual for the employees of the GRDA. The personnel manual should contain information about the employment conditions, opportunities, policies, and procedures of the GRDA. The personnel manual should comply with all applicable state and federal laws and regulations. The personnel manual should be intended for information purposes only and should not be intended to constitute a contract of employment.

III. **RESPONSIBILITY:** Board of Directors.

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.
AIMS, PURPOSES, AND OBJECTIVES

I. OBJECTIVE: To further the Authority’s mission to provide low-cost, reliable electric power and related services to its customers and to be responsive to the interests and concerns of public power users, the communities the Authority affects, and the people of the State of Oklahoma. The Authority pledges to assist in area economic development and help its customers adapt to changes in their business environments, as well as supporting environmental awareness, recreational development, and good safety practices on and around the Authority’s lakes, to ensure the continued improvement of the quality of life for all those who utilize these resources.

II. POLICY: The following objectives of the Grand River Dam Authority are established to serve the needs of the Authority’s customers, its employees, and the general public who utilize our resources; to conserve, preserve, and protect the environmental health and welfare of the lakes and lands within the Authority’s district; and to utilize effectively the Authority’s lakes and scenic rivers for recreational purposes. The Authority, its Board Members, Management, and Employees, in accomplishing these goals, will act only in accord with the highest ethical and legal standards, acknowledging the duty owed to the Authority’s customers, its bondholders, and the citizens of the State of Oklahoma, to refrain from violating those standards.

The Aims, Purposes and Objectives of the Authority are set forth as follows:

A. To provide an adequate and reliable supply of power at the lowest possible cost, consistent with sound business and environmental principles.

B. To encourage conservation of electric power to meet the total energy requirements of its customers.

C. To strive to achieve and maintain widespread understanding, participation, and involvement of customers in the affairs of the Authority.

D. To protect the quality of the water in the Authority's lakes and streams.

E. To conduct the Authority’s business to maintain its good reputation and ensure adequate low-cost capital, including funded reserves, sufficient to enable the Authority to assume its full financial responsibility.

F. To encourage and support the management and employees in the development and improvement of their full capabilities and performance.
G. To attain maximum use of manpower, physical, and financial resources through sound organizational structure, coordination, and integration of activities.

H. To provide reliable service and future expansions of facilities in anticipation of the expanding energy requirements of its customers.

I. To efficiently operate and maintain its facilities to provide reliability of service at the highest standard possible, consistent with sound business principles, prudent environmental practices, and requirements of all regulatory agencies.

J. To cooperate with the other power suppliers to ensure a reliable power supply, including interconnecting and interchanging of electrical power.

K. To keep in mind at all times the best interests of the customers and employees when making decisions and carrying out action programs at GRDA.

L. To promote and encourage the wise and beneficial uses of electricity and the Authority's resources to the end that the Authority will contribute to increasing community income, improved standards of living, better health conditions, and conservation of our natural resources.

M. To create a loyal and united customer base by ensuring superior service for all.

N. To provide factual information for the benefit of all interests connected with the generation and transmission of electrical energy.

O. To provide qualified employees with competitive compensation and benefits in order that superior service may be rendered to the customer base and the public in general.

P. To encourage participation in community activities to the extent that the public will be informed of the Authority's objectives and reminded that the Authority remains a good corporate citizen.

Q. To assist and cooperate with the U.S. Army Corps of Engineers to aid in flood control operations in an attempt to help prevent damages to person or property from the waters of the Grand River and its tributaries.

R. To develop and assist with programs designed to ensure conservation and recreational value of and environmental protection for the Authority's lakes.
POLICY NO. 1-2 (Continued)

AIMS, PURPOSES, AND OBJECTIVES

S. To encourage and promote tourism by developing adequate facilities for boating, swimming, fishing and other recreational activities on the Authority's lakes and scenic rivers.

T. To conduct the foregoing activities on an equitable basis according to the best judgment of those whose responsibility it is to manage the affairs of the Authority and to do so in compliance with all applicable federal and state laws and regulations promulgated thereunder, bond resolutions, ethical standards, and Authority bylaws.

III. RESPONSIBILITY: Board of Directors, Management, and Employees.

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.

POLICY NO. 2-1

BOARD RESPONSIBILITIES

I. OBJECTIVE: To establish and define the duties and responsibilities of the Board of Directors to ensure the management, administration, and regulation of the business and affairs of the Authority are in accordance with GRDA’s mission.

II. POLICY: In order to achieve this objective, it shall be the policy of the Grand River Dam Authority through its Board of Directors to establish the following provisions as the principal responsibilities and duties of Board members:

A. To establish and periodically review policies in compliance with applicable laws, rules, and regulations for the general management, administration, and regulation of the business and affairs of the Authority.

B. To employ a CEO to direct the operations of the Authority and execute the policies adopted by the Board, to evaluate the performance of the CEO annually, and to review the CEO’s salary on an annual basis.

C. To provide oversight, governance and vigilance in the review, evaluation and monitoring of (i) the performance of the GRDA, and its employees, (ii) assigned and approved budgets, (iii) committed plans, (iv) adherence to assigned delegations-of-authority and policy, and to make specific directives as needed to be carried out by the CEO of GRDA.

D. To promote accountability and ownership of assigned budgets, financial plans and commitments at all levels throughout the GRDA, while acting within policy, statutes, assigned roles, and responsibilities, and delegations-of-authority.

E. To assure compliance with all legal requirements in the operations of the Authority.

F. To participate in and support other organizations for the purpose of gaining knowledge to assist in the strengthening of the Grand River Dam Authority and continued promotion of public power in general.

G. To continuously examine and evaluate the financial condition of the Authority to ensure its fiscal integrity and initiate corrective action as necessary.

H. To constantly be aware of operating conditions by evaluating reports of activities, including the approval by ratification of business expenses as may be required by state statutes.

I. To evaluate and approve appropriate studies, contracts and reports according to policy and authority as recommended by the Board, the CEO and consultants including, but not limited to, the annual budget, long-range plans, financial forecasts, rate studies, audits, insurance coverage, employee benefits and compensation.
J. To exercise authority as a body when the Board is in session for the efficient administration of the Authority.

K. To ensure that the most effective decisions are made in the best interests of GRDA and the State of Oklahoma, all Directors are expected to attend all regularly scheduled Board meetings, and to actively participate in all assigned committees.

L. To establish and maintain a Compliance Program that complies with North American Electric Reliability Corporation, Southwest Power Pool, and Midwest Reliability Organization reliability standards.

III. RESPONSIBILITY: Board of Directors.

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.

POLICY NO. 2-2

BOARD MEMBER AUTHORITY

I. OBJECTIVES:
   A. To recognize that the Board of Directors establishes the policy of the Grand River Dam Authority, approves budgets, financial transactions, and other operational plans, delegates authority as needed, receives and approves management and employee commitments. The Board will engage in consistent and ongoing monitoring, evaluation, vigilance, governance, and oversight of GRDA operations and performance and will work with and through the CEO as needed to ensure satisfactory performance of plans, budgets, commitments and operation within approved policy and delegations-of-authority are achieved.

   B. To disavow individual acts, statements and comments of individual Board members, unless such have been adopted by the Board by resolution, bylaws or other legal authorization or express ratification.

II. POLICY:
   A. The business and affairs of the Authority shall be managed by the Board of Directors, which shall exercise all of the powers of the Authority by establishing policy and delegating day-to-day management to the CEO.

   B. The Board of Directors may act only as a body in a legally constituted meeting or in any other legally permitted method of taking official Board action.

   C. Individual Board members, unless otherwise authorized by statute, bylaws, specific resolution granting authority, or express ratification by the Board, may not by their individual acts, statements or comments, bind the Authority. Express disavowal by the Board of such acts, statements or comments shall not be required but may, if desired, be made.

III. RESPONSIBILITY: Board of Directors.

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.

BOARD COMMITTEES

I. OBJECTIVE: To provide for the establishment and operation of specific advisory committees to expedite action by the Board of Directors.

II. POLICY: For the purpose of expediting the final actions of the Board of Directors of the Grand River Dam Authority, and in accordance with the Authority's enabling legislation, the Board shall establish standing committees for the purpose of promulgating policies and oversight of the Authority.

The Chairman of the Board of Directors shall appoint each Committee Chairman and members of the standing committees and may, as required, establish or reassign committee responsibilities to implement activities of the Authority. Committees shall consist of three members. The Chairman of the Board may appoint at least one Board Member to serve as an Alternate Committee member. A Committee Chairman may request that an Alternate Committee member attend the Committee Chairman's committee meeting and participate as a member of the committee as necessary, to ensure the ability of the committee to perform its duties.

Standing Committees. The purpose of the committees is to provide a framework for the Board of Directors to establish the necessary policies and oversight to fulfill their statutory and fiduciary responsibilities. The Standing Committees shall be:

A. Assets Committee: The committee shall be responsible for recommendations to the Board of Directors concerning oversight of all real estate assets of the agency, lake operations, and scenic rivers operations. The committee shall review all dock applications and rentals or leases of real property as required by applicable law. The committee shall also review GRDA's Lake Rules and Regulations and Scenic Rivers Rules and Regulations, and review management's recommendations to the Board of Directors concerning revisions, deletions, or additions.

B. Audit, Finance, Budget, Policy and Compliance Committee: The committee is responsible for oversight and monitoring of GRDA's financial reporting, auditors, budget, compliance, and internal control activities in accordance with all applicable law, to effectively support the GRDA mission. The committee is responsible for oversight of the preparation of financial statements in accordance with generally accepted accounting principles. This oversight and responsibility may include assistance in selecting the independent auditors; reviewing financial, operating, and budget reports; advising management on internal control and budget practices; and meeting with the independent auditors.
The committee is responsible for oversight of policies, programs, and procedures that are designed to respond to the various compliance and regulatory risks facing the Authority. The committee shall review the bylaws and Board policies and make recommendations to the Board of Directors concerning revisions, deletions or additions.

C. Fuel and Long Range Planning Committee: The committee shall counsel, advise, and assist the CEO in matters relating to the purchase or sale and transportation of all coal, natural gas, oil, and other fuels used for combustion by the Authority, and in the disposition of by-products or residue of the combustion process. The committee shall review the Authority’s current resources with a view to planning for the future needs of the Authority and its customers.

D. Compensation and Marketing Committee: The committee shall continuously review industry, state agency, and other compensation data to keep abreast of the competitiveness of market-based compensation related to the CEO. The committee shall conduct regular performance reviews of the CEO and report those results to the Board of Directors. The committee shall review, modify, and recommend to the Board marketing plans to carry out GRDA’s mission and to communicate the value of services provided to Oklahomans.

Ad Hoc Committees. The Chairman may appoint ad hoc committees, not necessarily limited to Board membership of the Authority, to develop studies and recommendations on specific matters. All ad hoc committees shall be required to report any meetings to the Board of Directors. No ad hoc committee shall continue to function for a period in excess of twelve (12) months following initial appointment unless continued existence of the ad hoc committee is approved by the affirmative vote of four (4) members of the Board of Directors.

Implementation. All committees, acting in compliance with the Oklahoma Open Meeting Act, shall keep the full Board informed as needed of the matters within each committee’s various responsibilities. Any Committee may meet by telephone, but shall not exercise any actual or de facto decision making authority. The CEO, or such other person as is designated to act in the CEO’s capacity, shall assist these committees.
III. RESPONSIBILITY: Board of Directors

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.

CONFLICT OF INTEREST AND BUSINESS ETHICS

I. OBJECTIVES:
   A. To assure compliance by the Grand River Dam Authority in its business dealings, with its bylaws, and all applicable federal and state law, including Article 10, Section 11, of the Oklahoma Constitution, 21 O.S. § 344, and the Oklahoma Ethics Commission Act and the rules promulgated thereunder.
   B. To assure fair and impartial treatment of all persons and firms with whom the Authority maintains business relationships.

II. POLICY:
   A. Conflict of Interest

   The statutory enabling legislation for the Grand River Dam Authority provides that before a Board member may become eligible to be seated on the Authority’s Board of Directors, the individual shall meet certain statutory requirements relating to conflicts of interest (82 O.S. § 863.2 (D)). Further, the Rules of the Oklahoma Ethics Commission prevent a Board member from owning any direct or indirect interest in any bond, obligation or security issued by or in the name of the Authority. In order to accomplish the Authority’s objectives and to protect the integrity of the Authority, the following policy is to be adhered to, not only by the Board of Directors, but also by the Authority’s officers and employees.

   Board members, officers and employees shall exercise sound, ethical business judgments.

   It is considered to be in conflict with the Authority's interest for:

   1. A Board member, officer, employee, or any member of his or her family to have a financial interest in any business organization which deals with the Authority, where there is an opportunity for preferential treatment to be given or received, except where such an interest comprises securities in widely held corporations which are quoted and sold on the open market, unless the ownership of securities is a material financial interest under the Rules of the Oklahoma Ethics Commission. A family member shall be defined as set forth in the Oklahoma Ethics Commission rules for purposes of this policy.

   2. A Board member, officer, or employee to accept or solicit employment which would impair their independence of judgment in the performance of his or her duties for the Authority.
Board members, officers and employees dealing with contractors, suppliers, consultants, customers and other persons doing business with GRDA shall conduct such activities in the best interests of GRDA without favor or preference and shall fulfill their ethical duties in appearance as well as in fact. In furtherance of such policy, all Board members, officers and employees shall disclose to the GRDA General Counsel any relationships which could be construed as an appearance of impropriety.

3. A Board member, officer, employee, or member of his or her family to engage in a business transaction with the Authority or to any company or individual who serves the Authority as a contractor or supplier.

4. A Board member, officer, or employee to release any data on competitive bids to anyone outside the Authority's employ prior to the opening of the competitive bid. Data on contract rates and the cost experience of the Authority shall not be released to anyone outside the Authority except where this is deemed essential and appropriate by duly designated management representatives and does not weaken the Authority's position in negotiating agreements with contractors and others for services and materials. The above prohibitions are subject to applicable laws, including the Open Records Act, the Open Meeting Act, and orders of courts of competent jurisdiction.

5. A Board member, officer, or employee to disclose confidential information or to use confidential information for personal gain or benefit.

6. A Board member, officer, employee, or member of his or her family directly or indirectly to solicit or accept any compensation, gift, loan, entertainment, favor or service given for the purpose of influencing such Board member, officer or employee in the discharge of his or her official duties. Gifts of nominal value, entertainment, meals or social invitations may be accepted if they conform to the Oklahoma Ethics Commission Rules.

7. A Board member, officer, or employee to use his or her official position to solicit or secure special privileges or exemptions for himself/herself or others.

8. A Board member, officer, or employee to receive or solicit any compensation from a source other than the Authority that would impair his or her independence of judgment.
9. A Board member, officer, or employee to sell, offer to sell, or cause to be sold, either as an individual or through any business enterprise in which the individual holds a substantial financial interest, goods or services to the Authority or to any company or individual who serves the Authority as a contractor or supplier.

B. Business Ethics

In order to carry out the Authority's objectives in a fair and ethical manner, it is mandatory that the Board of Directors, officers, and employees conduct themselves in a manner which exemplifies honesty and integrity in their day-to-day business activities.

If a Board member, officer, or employee is uncertain as to whether a violation of this policy has occurred, an opinion should be requested from the GRDA General Counsel.

Individuals shall be encouraged to report incidents of suspected fraud or compliance violations through GRDA's hotline. The caller may remain anonymous. The General Counsel shall provide to the Board an annual report summarizing the calls made to the hotline throughout the year. Such report shall include the nature of the call, the action(s) taken related to the specific call and whether any further action is needed.

A copy of this policy shall be made available to all Board members, officers and employees. In addition, the Board of Directors Policy Manual is available on the Authority's website.

III. RESPONSIBILITY: Board of Directors, Management and employees.

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.
EXPENSE ALLOWANCES FOR OFFICIAL BUSINESS - BOARD OF DIRECTORS

I. OBJECTIVES:

A. To establish a fair and equitable method for reimbursing expenses incurred on official GRDA business.

B. To expand the education and knowledge of GRDA Directors by providing expenses for attendance at school, seminars, and other official meetings.

II. POLICY: It shall be the policy of the Authority to pay for expenses incurred by the Directors while attending approved official meetings or authorized business of the Authority.

Payment of expenses shall be subject to the following provisions:

Expenses: Each Director shall be allowed actual and necessary expenses incurred in attending the meetings of the Board and in attending to the authorized business of the Authority.

"Authorized business," as used in 82 O.S. § 863.2 and in the bylaws of the Authority, means: when authorized by the Board of Directors, when requested by the Authority's CEO, when directed by the Governor of the State of Oklahoma or when required by any indenture or bond resolution of the Authority.

Claims for reimbursement of expenses shall be submitted on the regular authorized form of travel expense claim and shall be signed by the Director performing the travel and approved by ratification by the Board of Directors.

III. RESPONSIBILITY: Board of Directors.

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.

DUTIES OF THE GRDA CEO

I. OBJECTIVES:
A. To define the duties and responsibilities of the CEO.
B. To delegate authority to the CEO for the efficient administration of the Authority's affairs.
C. To establish a continuous consultative management technique to inform the Board of Directors of the overall financial and operating conditions of the Authority.

II. POLICY: It shall be the policy of the Authority to achieve the above objectives by establishing the following parameters in the duties, authority, and responsibility of the CEO:

A. General
1. The Board of Directors shall retain a CEO, who shall be the Chief Executive Officer of the Authority, to whom it delegates authority and responsibility for the operation of the Authority within the limits of approved policies, programs, and budget.
2. The CEO shall recommend an organizational structure, which will most effectively and efficiently achieve the Authority's aims, purposes, and objectives.
3. The CEO shall employ, discharge, train, suspend, reprimand, discipline, transfer, promote and demote employees of the Authority within the guidelines of the Oklahoma Merit System, GRDA bylaws, and state and federal employment laws.
4. The CEO shall provide maximum service to GRDA and its customers by:
   a. Keeping the Board of Directors adequately informed of operating conditions, financial positions, and other key areas of operations, together with reports on end results of programs, plans, policies, and Authority operations.
   b. Advising and assisting the Board of Directors in establishing sound written objectives and policies, and seeing that they are effectively carried out.
   c. Managing the affairs of the Authority in accordance with the objectives and policies of the Board of Directors and sound management principles, as well as acting within approvals and delegations-in-authority, and adherence to commitments.
DUTIES OF THE GRDA CEO

d. Carrying out a continuous management improvement program based on consultative management with the application of more effective management techniques where applicable.

e. Providing leadership and effective administration of a well-planned and smoothly operating organization of adequately trained personnel.

f. Devoting the necessary time during normal business hours to the management of the Authority, and not engaging in activities that would conflict with the best interest of the business of the Authority.

g. Promoting a satisfactory working environment which will make available the opportunity for maximum creativeness, personal job satisfaction, sense of accomplishment, and effective operations.

h. Providing qualified employees with adequate compensation and benefits in order that superior service may be rendered to the Authority and its customers, subject to the provisions of the Oklahoma Personnel Act and other applicable state employment laws.

i. Establishing and maintaining an effective internal control system throughout the organization.

j. Promoting absolute accountability and ownership of assignments, commitments and policy at all levels, by all employees, throughout the GRDA.

B. Reporting Relationship

1. Reports to: Board of Directors.

2. Supervises: Chief Operating Officer, Chief Financial Officer, Executive Vice Presidents, and General Counsel.

C. Responsibilities and Authorities

1. Organization

   a. Prepares appropriate agenda for board meetings.

   b. Reviews, periodically, the activities and procedures of the Authority, and informs the Board of Directors the organization structure that would most effectively carry out the Authority's plans, programs, policies, and objectives.
c. Performs duties required of the CEO under terms of Base Bond Resolution No. 5107 and any Supplements thereto.

d. Interviews and informs the Board of the selection of his or her staff, in accordance with established policies and procedures.

e. Transfers, promotes, and terminates, in accordance with established policies and procedures, the members of his or her immediate staff.

f. Sees that each GRDA employee is thoroughly trained to meet the requirements and responsibilities of their respective position description.

g. Sees that effective job training and safety programs are carried out as necessary to improve job performance and to help employees develop and improve.

h. In accordance with established policy, sees that written position descriptions are prepared for the positions in the Authority which clarify reporting relationships, responsibilities, duties, authorities, general working conditions, and other relationships. Makes certain that each employee understands and accepts their responsibilities, authorities, and reporting relationships.

i. Reviews, and approves or disapproves, all wage and salary adjustments as recommended by the staff in accordance with the wage and salary policy.

j. Develops, generates, and maintains team spirit and enthusiasm throughout the organization by appropriate delegation, recognition of accomplishments, job enlargement, counseling, and by advancement according to merit, interest, and ability.

k. Develops, promotes, and maintains an effective climate of supervision throughout the entire organization which utilizes maximum participation of personnel in the development of operating policies, plans, and activities which affect them or for which they are responsible.

2. Directing

a. Directs and is accountable for the operations and activities of the Authority, ensuring that all responsibilities, authorities, and relationships are understood, accepted, and reflected in operations.
b. Delegates appropriate authority to his or her immediate staff to the extent that those fully trained for their respective position may perform on their own initiative and without prior approval of all activities outlined in their position descriptions.

3. Planning

a. Periodically reviews existing Authority policies, discusses with employees their effectiveness, and recommends any change or need for additional policies to the Board of Directors.

b. Initiates and develops through the staff, long-range system plans and annual work plans for the Authority.

c. Continuously evaluates Authority plans, operations, programs, policies, and procedures in order to provide for more effective methods and improvements in operations and services rendered by the Authority.

d. Plans, with the staff and consultants, the facilities required to effectively carry out Authority operations and services.

e. Plans, develops with employees, and recommends to the Board of Directors policies on finance, organization, purchasing, personnel, and compensation. Interprets approved policies to his staff, and sees that such interpretations are extended through appropriate channels and delegations to personnel concerned.

4. Performs Personally

a. Attends and participate in national, regional and state generation and transmission electric utility organizations and other related meetings; and should serve on committees.

b. Serves as member and actively participate in community organizations.

c. Advises and counsels with staff members with respect to special items beyond their authority, and makes necessary decisions.

d. Secures legal advice from legal counsel on special matters as necessary.

e. Reports to Directors on the Authority's operations, problems, and objectives.
DUTIES OF THE GRDA CEO

f. Approves, as delegated by the Board of Directors or in accordance with the provisions of the GRDA Purchasing Policy, purchases and contracts where the amount of money involved is One Hundred and Fifty Thousand ($150,000) or less.

g. Reviews, in consultation with staff and consultants, loan applications, and submits them to the Board of Directors or other lenders for approval.

h. Signs checks in accordance with check signing procedures.

i. Signs and submits regular and special reports to regulatory agencies as required.

j. Accepts and reviews from staff, any revision necessary in the Authority's insurance coverage, and procures additional insurance requirements as recommended by the GRDA General Counsel.

k. Conducts negotiations with other power suppliers, as head of a staff negotiating team.

l. Periodically analyzes wage and salary studies to determine any changes needed to conform to Board policies.

5. Controlling

a. Evaluates the effectiveness in the accomplishments of overall functions and objectives of the Authority.

b. Reviews Authority operations with employees to discuss problems, attitudes, and needs which exist within the Authority.

c. Reviews adequacy of correspondence contacts by reviewing copies of letters to customers, government agencies, and others.

d. Receives and analyzes monthly operating reports.

e. Reviews and directs the submission of reports to state and federal regulatory agencies.

f. Reviews the annual financial audit to determine if corrective action is needed, and sees that such action is carried out.

g. Reviews system studies and financial forecasts to analyze the status of system operations, programs, and financial requirements.
DUTIES OF THE GRDA CEO

h. Reviews financial forecasts, long-range plans, work programs, and power requirement studies and analyzes performance as compared to plans and standards.

D. Relationship

1. Internal

a. Board of Directors: To consult and advise the Board of Directors on matters pertaining to policies, plans, programs, the need for facilities, financing, operating requirements, and other areas as requested or required; to keep the Board of Directors fully informed of the end results of the operations; to carry out approved policies, plans, and programs; to seek advice and obtain necessary approvals. The CEO is delegated the authority to have the proceedings of the Board recorded in assisting the Secretary in the preparation of minutes of the Board meetings.

b. Attorney: To confer, consult, and obtain advice on legal matters, including compliance with federal and state laws.

c. Consultants: To obtain maximum advice and counsel regarding long-term system trends, and take advantage of broad technical services.

d. Auditors: To obtain advice on financial matters, to provide assurance of adequate and efficient financial records that effectively meet legal requirements.

e. Employees: To advise and consult on matters relating to Authority operations, plans, policies, and programs; to assure complete understanding, coordination, and cooperation necessary to ensure maximum use of employee services; and to effectively work toward overall Authority objectives.

2. External

a. Customers: To keep advised of customer reaction and satisfaction; to see that dependable and efficient service is provided for customers; and to obtain and promote their increased plans, policies, programs, and viewpoints.

b. National and State Associations: To participate in meetings; to serve on committees; to keep informed of industry, economic and social trends, policies, and new developments.
DUTIES OF THE GRDA CEO

c. **All Applicable Regulatory Entities:** To observe and comply with rules and regulations as they apply to operations, and furnish information.

d. **Other Generation and Transmission Utilities:** To share experiences, and to confer on mutual problems.

e. **Public and Community:** To represent the Authority in public and community functions and projects, and to obtain acceptance of the Authority's philosophies and objectives.

f. **Customer Development:** To present a twelve-month plan to the Board in December of each year.

g. **Public Relations:** To promote the public's and customers' image of the Authority and maintain a close liaison with the state legislature and the Governor's staff.

III. **RESPONSIBILITY: CEO.**

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.

**DATE ADOPTED:** June 20, 1990  
**DATE AMENDED:** January 8, 2020  
**REVIEW SCHEDULE:** Annually  
**DATE REVIEWED:** January 8, 2020  

[Signatures]

James B. Richie, Chair  
Daniel S. Sullivan, President/CEO
EMPLOYMENT OF CEO

I. OBJECTIVES:
   A. To provide for the method of selecting a competent CEO to direct the operation of the Grand River Dam Authority and execute the policies adopted by the Board of Directors.
   B. To provide for continuity of management subsequent to the sudden loss of the CEO.
   C. To provide a plan of action for the orderly replacement of the CEO.

II. POLICY: It shall be the policy of the Authority to achieve the above objectives by establishing the following parameters to assist the Board of Directors:

   A. Loss and Employment of the CEO

      1. In the event of the necessity to employ a CEO for any reason, the Chairman shall be notified immediately by the current CEO, or in the absence thereof, by the General Counsel.

      2. The Chairman shall appoint a temporary Acting CEO and call a special meeting of the Board of Directors, such meeting to be scheduled as soon as practical, but no later than ten (10) days from the date of occurrence of the vacancy.

      3. The temporary Acting CEO shall:

         a. Notify each Director of the circumstances and the time, place, and date of the special board meeting as authorized by the Chairman.

         b. Notify the Authority's General Counsel of the circumstances and the time, place, and date of the special board meeting.

         c. Conduct the day-to-day affairs of the Authority as necessary until the special board meeting.

         d. Notify the Governor, primary financing institutions and other such entities as may be in the best interests of GRDA and the state.

      4. In the special board meeting, the Board of Directors shall:

         a. Appoint an Interim CEO.

         b. Conduct the following business:
EMPLOYMENT OF CEO

(1) Determine the method or methods of obtaining applications from highly qualified candidates for the vacancy, which may include, but not be limited to, the following:

(a) Secure a professional management search firm to recruit applicants.

(b) Advertise in nationwide utility industry publications and statewide periodicals and publications.

(c) Obtain a list of employees interested in the vacancy.

(2) Determine the salary range and benefits to be offered to candidates based on qualifications and experience.

(3) Establish a time schedule as a goal for the selection of the Manager.

5. The Board of Directors shall, as a courtesy, keep the Governor, State of Oklahoma, apprised of the status of the selection process.

III. RESPONSIBILITY: Board of Directors.

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.

DATE ADOPTED: June 20, 1990
DATE AMENDED: January 8, 2020
REVIEW SCHEDULE: Annually
DATE REVIEWED: January 8, 2020
I. OBJECTIVE: To establish a mechanism to adjust rates to reflect variation between the Base Power Cost and the actual cost of fuel used in generation for sales subject to the Power Cost Adjustment (PCA).

II. POLICY:

   Application of this Rate

   GRDA's PCA is applicable to all contract sales provided under a rate schedule.

   The Power Cost Adjustment factor will be estimated and set at least every six months, but subject to more frequent or further revisions.

III. RESPONSIBILITY: The Power Cost Adjustment will be recalculated by the staff and presented to the Board of Directors for its approval at least every six months.

   This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.

DATE ADOPTED: June 20, 1990

ECONOMIC DEVELOPMENT, MARKETING, CUSTOMER AND COMMUNITY RELATIONS

I. OBJECTIVE: To state the policy of the Authority with regard to industrial development, marketing, and customer relations.

II. POLICY:

A. Personnel

GRDA shall hire and maintain on its staff a sufficient number of employees for the purpose of promoting and advancing economic development, marketing and customer and community relations.

These employees shall possess adequate education and/or experience in the fields of economic development and marketing, recognizing the needs of marketing, key account administration, public relations and electrical power generation and distribution.

B. Duties

1. Communicate with the Authority's customers regularly, supplying appropriate information relative to the efficient usage of electric power.

2. Communicate with prospective customers, explaining in detail the positive benefits of doing business with the Authority.

3. Represent the Authority with the Oklahoma Municipal Alliance, serve as an additional liaison to the Oklahoma State Legislature, and coordinate sales and marketing in a timely manner in order to respond to the demands of deregulation when authorized by the CEO.

4. To develop and help exercise competitive marketing capabilities.

III. RESPONSIBILITY: Management.

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.

DATE ADOPTED: June 20, 1990

I. PURPOSE OF THE ENERGY RISK MANAGEMENT POLICY

A. Introduction: The Grand River Dam Authority (GRDA) is a non-appropriated agency of the State of Oklahoma and is governed by a seven member board of directors. It is GRDA's mission to produce and deliver low-cost, reliable electric power and related services to our customers. Consequently GRDA faces a variety of utility operating risks. This risk management policy outlines the procedures and policies by which GRDA measures, monitors and reports on the energy market risks it encounters in its role as an electric utility.

B. Scope: This Energy Risk Management Policy (Policy) applies to transactions executed by GRDA's Front Office and the Generation & Marketing Unit.

C. Philosophy: GRDA recognizes that certain risks are inherent in the energy business environment. The organization seeks to manage these risks in order to provide rate stability to its customers while maintaining a stable debt service coverage ratio.

1. GRDA manages its utility operations risks through the following business practices:

   a. Proper Oversight. The Board of Directors, through various committees, provides oversight and sets policies that establish guidelines and parameters for GRDA's business operations. GRDA's directors review policies at least annually to provide reasonable assurance that:

      (1) effective business management systems are in place to ensure GRDA remains financially sound;

      (2) necessary internal controls are employed;

      (3) GRDA resources are maintained in accordance with good utility practices; and

      (4) GRDA remains in full compliance with applicable regulating bodies.

   b. Statutory Restrictions. GRDA's statutory restrictions currently allow GRDA to engage in financial hedging activities, but specifically prohibit speculative fuel and energy trading. See 82 O.S. § 862(b).

   c. General Bond Resolution Restrictions. GRDA's General Bond Resolution No. 5107 referring to Revenue Bonds
specifies different payment priorities for “Operating Expenses” and other expenses including for Settlement Amounts under Fuel Hedges.

d. Secure Revenue Stream. GRDA has secured a significant portion of its revenue requirements well into the future through long-term contracts with the majority of its wholesale customers. These contracts provide for the full recovery of all future fixed and variable revenue requirements, thereby substantially securing GRDA’s future revenue requirements and debt service coverage ratios.

e. Diverse Portfolio of Generation Resources. GRDA’s portfolio includes, coal, natural gas-fired combined cycle, hydro, pumped-storage, and wind resources.

D. Objectives: The primary objectives of GRDA’s energy risk management activities are to balance the business goals of:

1. Providing stable electric rates to customers;
2. Preserving a supply cost advantage through hedging; and
3. Managing business processes to allow the organization to work efficiently and cost effectively.

When the above goals are in conflict, the Risk Oversight Committee (the ROC) will collaborate with GRDA staff and the executive team to resolve the conflict.

1. Customer Rate Stability: Stable rates are of high value to the customers of GRDA. However, energy commodity market prices can be volatile. Therefore, GRDA will endeavor to manage market risk, weather risk, volume risk, and credit risk to avoid volatility in GRDA’s power cost adjustments.

2. Preserve a Supply Cost Advantage: GRDA’s staff will endeavor to:
   a. Manage exposure to wholesale energy and fuel price movements;
   b. Manage exposure to transmission congestion; and
   c. Manage uncertainty in supply cost by taking advantage of flexibility inherent in GRDA’s purchased power and fuel contracts and its diverse portfolio of resources.

3. Efficient and Cost Effective Business Process: GRDA’s staff will use sufficient business practices and controls to identify, evaluate,
measure and manage risks through appropriate recording, analysis and reporting requirements. Staff will strive to improve the risk management procedures to enhance productivity, optimize the cost and value of conducting risk management activities, and maintain transparency and the value of the risk management process.

E. Policy Approvals: GRDA's Board of Directors must approve this Policy, including limits, as well as any future changes to the Policy or limits, in order for those revisions to become effective. Board approval shall not be required to amend, supplement or update the Policy appendices, however, all changes to the appendices, as approved by the Risk Oversight Committee, will be reported to the Board of Directors. On an annual basis, the Chief Financial Officer, in collaboration with the ROC, will review this Policy and determine if it should be amended, supplemented or updated to account for business developments or for other appropriate business reasons.

Additional policies and procedures that may be developed to fully implement this Policy do not require Board approval, so long as such policies and/or procedures do not conflict with this Policy. In the event that any policies or procedures conflict with this Policy, this Policy shall prevail.

II. DISCUSSION OF RISK

The following section describes certain risks that GRDA seeks to manage through this policy.

A. Market Risk: Market risk represents the risk associated with the uncertainty in GRDA performance due to participation in the wholesale energy markets, and includes, but is not limited to, volatility risk, forward price risk, basis risk, correlation risk and liquidity risk. These risks are inherent in and can be realized through GRDA's operations, and can increase the uncertainty of GRDA's revenues, expenses, customer rates, and the value of energy-based assets and liabilities.

B. Counterparty Risk: Counterparty Risk is the risk associated with losses incurred due to a counterparty not fulfilling contractual obligations. This risk can be realized through a physical or financial nonperformance. GRDA will manage this risk through the Credit Policy and the limit structure in this Policy. The Credit Policy will manage credit exposure and potential adverse financial impacts related to wholesale commodity transactions by:
1. Establishing a credit risk management governance and oversight structure as part of the overall risk management program;

2. Providing a framework to enable GRDA to qualify energy suppliers and transact with approved counterparties;

3. Providing counterparty transacting parameters (limits) to control and measure GRDA’s exposure to any one supplier; and

4. Implementing a mechanism to monitor and report on supply portfolio related counterparty credit exposures.

C. **Credit Risk**: Credit Risk is the risk that a decline in credit rating may require additional collateral posting. Changes in Credit Risk may be associated with changes in Counterparty Risk.

D. **Volume Risk**: Volume Risk represents the potential for unforeseen changes from projections of excess or shortfall of capacity or energy from the forecasted needs that affect the amount of capacity or energy that GRDA will transact with the market. When variances are large, coupled with large costs to transact and adverse moves in market prices, this risk could be realized. In management of this risk, GRDA must be aware of the fact that unexpected variations in volume are often highly correlated with price movements.

E. **Budget Risk**: Budget Risk is the risk associated with actual power and energy prices being higher than budgeted power and energy prices. This risk can be managed by monitoring the market uncertainty and the impact to the GRDA portfolio. GRDA manages this risk through active hedge management and the limit structure in this Policy.

F. **Regulatory Risk**: Regulatory Risk is the risk associated with participating in regulated markets, and the impact that changes in regulations could cause in those markets, and in GRDA’s operations. To ensure GRDA compliance with applicable regulators and regulations, GRDA:

1. requires all employees participating in activities within the scope of this document to participate in compliance training no less than annually; and

2. actively monitors regulatory bodies for regulations applicable to GRDA.
G. Operations Risk: Operations Risk is the exposure that GRDA faces daily due to operations. Specifically operations risk includes:

1. Execution Risk is the uncertainty of GRDA performance due to delays or factual deficiencies regarding transaction execution.

2. Operational Risk is the uncertainty of GRDA performance due to imperfections in the quality, scope, content, or execution of human resources, technical resources, systems, and/or operating procedures.

III. GOVERNANCE

A. Board of Directors: The Board of Directors is responsible for understanding the risks and setting tolerances for the risk inherent in GRDA’s operations. Although the Board retains the authority to approve revisions to this Policy, the Board will delegate the implementation of this Policy to the Risk Oversight Committee ("ROC"). In addition to the responsibilities of the Board outlined in Board Responsibilities (Policy No. 2-1), by their approval of this Policy they also undertake the following responsibilities:

1. Understand the nature of the risks inherent in the business and the strategies used to manage these risks;

2. Approve amendments to this policy, excluding the appendices;

3. Approve all transactions outside of ROC authorization limits;

4. Delegate the oversight and maintenance of the Policy functioning to GRDA’s ROC;

5. Delegate approval of transactions within the authority of the ROC; and

6. Ensure a review of GRDA’s compliance with Risk Policy related policies and procedures is conducted annually.

B. Risk Oversight Committee (ROC): The Risk Oversight Committee is responsible for: (1) primary operational risk oversight for GRDA; and (2) the implementation of this Policy. The ROC shall meet at least monthly, chaired by the Chief Financial Officer or the Chief Financial Officer’s designee. The ROC, at an operational level, is accomplished through a supervisory review, approval and separation of duties. GRDA’s functions are generally separated into the Middle Office, Front Office, and Back Office functions as discussed below. The Chief Financial Officer provides executive oversight for the Middle Office.
functions while the Chief Operating Officer oversees the Front and Back Office functions.

The ROC shall be comprised of GRDA employees. The following GRDA employees will be voting members, each having one vote: (1) Chief Executive Officer (CEO); (2) Chief Operating Officer (COO); and (3) Chief Financial Officer/Treasurer (CFO). The voting members of the ROC may delegate their vote to a proxy. The proxy must be in the same part of the organization as the voting member. At a minimum, the CFO or the CFO proxy must participate in all ROC votes. Decisions will require a majority vote of all ROC members, regardless of meeting attendance. The ROC will ask GRDA's general counsel, or other legal representative, be present at ROC meetings as a non-voting member when warranted by the discussion topic. Other GRDA staff may be asked to attend meetings from time-to-time, as the ROC deems necessary.

The Board has delegated to the ROC ongoing maintenance and enforcement of GRDA's approved policies and procedures for trading and risk management. The responsibilities of the ROC shall include:

1. Monitor the risk exposures of GRDA's individual portfolio to ensure that such exposures are within tolerable limits and being managed in a manner consistent with this Policy;

2. Understand and approve methodologies, models and strategies used for market and credit risk measurement and management;

3. Approving amendments to the appendices of the Policy and reporting these changes to the Board of Directors;

4. Review any new counterparties and approve their credit limits, as recommended by GRDA. The ROC shall provide oversight regarding credit matters. As required, a review of an individual counterparty credit and credit documentation status will be included at each monthly ROC meeting;

5. Receive, review and approve changes to existing and any new risk reports prepared by GRDA’s Middle Office;

6. No less than annually, review Risk Policy related Policies and Procedures for suitability and recommend changes to the Board;

7. Establish and approve qualitative and quantitative limits for hedging products as deemed necessary;
8. Understand the risk/reward relationship of proposed hedging transactions to ensure consistency with GRDA's overall operating objectives, business strategies and risk tolerances;

9. Ensure that employees have received adequate training for the products they execute;

10. Approve individuals at GRDA that are authorized to commit GRDA to risk;

11. Approving new products that GRDA uses to manage risk;

12. Ensure that independence and segregation of duties exist at GRDA;

13. Represent to the Board the sufficiency of GRDA’s trading and risk infrastructure and its overall compliance with policy and procedures;

14. Ensure all GRDA staff are aware of and understand their individual responsibilities for compliance with this Policy;

15. Review exceptions to this Policy; and

16. Review proposed legislation and regulation for potential impacts to GRDA business.

GRDA’s risk management process will be outlined in GRDA’s Energy Hedging Program to be approved by the ROC and presented to the Board.

The Chief Financial Officer, in collaboration with other key GRDA staff, will determine the sufficiency of control and reporting requirements.

Meeting minutes will be kept (including any electronic votes taken outside of the meeting) and will be retained by GRDA consistent with GRDA’s Records Management Policy (Policy No. 8-3). Additionally, any materials used in the analysis or decision to enter into a swap, as defined by the CFTC, including confirmation documents, will be retained as specified by applicable law.

C. Chief Executive Officer: The CEO is responsible for the day to day operations of GRDA and has overall responsibility for executing and ensuring compliance with this Policy as adopted by the Board. The CEO’s roles and responsibilities are outlined in Duties of the GRDA General Manager/CEO (Policy No. 3-1).
The CEO may delegate these responsibilities to one or more officers as outlined in **GRDA's Bylaws**.

D. **Chief Financial Officer**: The CFO is the chair of the ROC and heads the Finance department (the Middle Office) which provides the primary independent oversight role. The Middle Office, under the management of the CFO, institutes, supervises, and reviews all risk management activities including portfolio exposure, credit exposure, transaction compliance and on-going approval of counterparties and transaction limits. Additionally the CFO is responsible for billing activities and accounting. The unit’s responsibilities include:

1. Monitoring and reporting on GRDA’s risk exposures and ensuring compliance with policies, guidelines, and procedures.
2. Maintaining this Policy;
3. Ensuring this Policy is effectively communicated to all necessary individuals;
4. Reporting to the Board on risk management issues, and recommending when changes in policy or operating procedure are required. These recommendations may relate to the temporary or permanent halting of transactions with one or more counterparties, exceptions to rules and procedures, other operational exceptions, and any other topic the CFO believes represents an unacceptable risk exposure;
5. Establishing appropriate accounting methods for all transactions executed by GRDA; and
6. Monitoring and ensuring compliance with General Bond Resolution No. 5107 payment priorities for different exposures under transactions.

E. **Chief Operating Officer**: The Chief Operating Officer provides executive oversight for the Front and Back Office functions.

The Front Office, the Generation and Marketing Unit, is primarily responsible for resource planning and procuring energy supplies and services on a short term basis. This unit has a critical role in risk management through its transacting operations. Generation and Marketing has the authority to commit GRDA capital to energy transactions with counterparties. As such, this unit is a central clearing point for risk assumption and risk management.
The Back Office, the Settlements Group, is primarily responsible for settlement of transactions and deal verification. This unit’s roles in oversight are ensuring and independently monitoring and recording transactions into the deal capture system, and verifying and reporting on compliance with procedures as reflected in the deal tracking documentation.

The Generation and Marketing Unit’s roles in risk management include:

1. Implementation of GRDA-approved, generation and marketing procedures consistent with Board approved policies;

2. Development and implementation of energy portfolio management plans following Market Protocols for the dispatch guidelines; and

3. Proper recording of all transactions within GRDA’s deal capture systems.

The daily operating plans shall be routinely reviewed by and discussed with the Chief Operating Officer by the Generation and Marketing Unit’s Manager.

F. Individual Authorities: After the ROC approves individuals to commit GRDA to transactions, the individual and his or her authorities will be added to Appendix B of this Policy. Only employees approved by the ROC can commit GRDA to energy market transactions. Approved employees can only authorize and execute transactions for products for which they have approval and within the limits set forth in this Policy and Appendix B.

IV. BUSINESS PRACTICES
   A. Operational Practices
      1. Standards of Conduct: GRDA, as a non-appropriated agency of the State of Oklahoma, operates under Oklahoma state statutes, administrative rules, and other directives, and follows Oklahoma ethics rules and Code of Conduct Standards.

      2. Training: It is the responsibility of the Risk Oversight Committee to ensure employees that are able to commit GRDA to risk have received adequate training and understand the implications of their commitments. If an employee is transacting in an RTO, GRDA requires the employee to participate in training courses offered by the RTO before executing transactions. Additionally, GRDA will have all employees participating in the regulated market review the FERC
Standards of Conduct and GRDA’s Conflict of Interest and Business Ethics Policy on an annual basis.

B. Trading Practices

1. **Authorized Traders**: All transactions must be committed to by an authorized trader. A list of authorized traders is included in Appendix B of this document.

2. **Transaction Methods**: All transactions must be confirmed over a recorded phone line; or through a signed confirmation or agreement from both parties, that meets state record retention statutes.

3. **Authorized Products**: All transactions must be on the Approved Products/Transaction Type List contained in Appendix A of this Policy. The ROC will be responsible for authorizing all products and commodities that will be included in Appendix A. GRDA staff will be responsible for understanding and communicating the risks associated with each transaction type and making recommendations to the ROC for approving products. The form required for authorizing a new product is included in Appendix C.

GRDA staff must comply with the following procedures in order to request the ROC to authorize a new product via Appendix C:

a. New products will be recommended and must first be approved by the ROC before trade execution;

b. Staff must include a justification for the new product stating the value to GRDA and an identification of potential risks associated with the product;

c. The ROC, in regular or special session, will review the justification and approve the product, and approve quantitative and/or qualitative limits on use of the product if deemed desirable; and

d. The ROC may either act upon the request to authorize the new product, or defer authorization to the Board, at the ROC’s discretion

4. **Authorized Counterparties**: All transactions must be executed under a Master Agreement, a Participation Agreement or a non-standard industry agreement and credit must be established and available. GRDA staff will be responsible for assessing credit worthiness of a
new counterparty, and the ROC will be responsible for approving credit worthiness.

The process for seeking ROC approval for counterparty creditworthiness is as follows:

a. New counterparties justification will be recommended to the ROC by the Chief Operating Officer (COO);

b. The Chief Financial Officer (CFO) will be responsible for providing the suggested credit limit;

c. GRDA general counsel will be responsible for ensuring contract language is acceptable to GRDA;

d. The ROC is responsible for approving credit limits and documentation requirements for any new trading partner; and

e. A new counterparty will not receive final approval until the ROC's approval is obtained. Trading with the counterparty is not allowed until the ROC completes this process.

5. Trade Recordkeeping: A paper or electronic trade ticket will be filled out for every trade entered into by GRDA. A copy of the trade ticket shall be provided to GRDA’s Middle Office and a copy retained by the GRDA trader executing the transaction.

A trade ticket will contain, at minimum, the following information:

a. Date of transaction;

b. Counterparty;

c. Transaction capacity (MW/hour or MMBtu/day);

d. Buy or sell;

e. Transaction price;

f. Delivery point;

g. For options, option type, strike, and execution instructions;

h. For financial swaps, the reference index;

i. Starting delivery date and hour;

j. Ending delivery date and hour;

k. Product type;
1. Any other date, hour and/or capacity data needed to define a shaped product;

m. Broker or electronic trading site and fee, if applicable;

n. If the transaction is a swap;

o. The reporting counterparty, if the trade is a swap and there is not a prearranged reporting relationship; and

p. If the trade qualifies for the trade option exemption or exception to clearing for end user, if the trade is a swap.

6. Deal Entry, Confirmations and Check Out: All transactions will be entered into the deal entry system, by the Front Office, and confirmations will be generated for all transactions when required by the agreement and created by the GRDA Back Office. The counterparty will be directed to deliver the confirmation directly to GRDA Back Office. A GRDA trader will initiate the confirmation process by entering the trade in the appropriate system no later than the end of shift on the day of the trade. Once the trade is entered and verified in the system and past flow the trade can be checked out by GRDA counterparties prior to invoicing.

a. When confirmation of the trade is received, the GRDA’s Back Office will reconcile the confirmation with the transaction in the deal entry system.

b. Should there be a disagreement between the counterparty and the GRDA trade ticket as to any of the terms of the transaction; it will be the responsibility of the GRDA’s Back Office to work with the GRDA trader and the counterparty’s representative to resolve all differences on that same business day. Provided, nothing in this Policy is intended to or will have the effect of limiting or diminishing GRDA’s rights to recover from a counterparty in the event that the differences are not resolved on that same business day.

c. All confirmation and reconciliation of a forward trade will be accomplished by the end of the second full work day after the trade date, or first delivery, whichever is earlier.

7. Model and Methodology Approval: All models for risk measurement, valuation, or pricing shall be used only after the ROC has approved the methodologies and assumptions underlying the model.
V. EXPOSURES AND LIMITS

An important element to any risk management program is the regular identification, measurement, and communication of risk. The limit structure put forth in this document sets the maximum exposure on risks that GRDA is willing to accept when entering into transactions covered under the Policy. Risk associated with GRDA transactions shall be quantified and compared against maturity, term, location and value exposure limits contained below.

Setting and adherence to risk exposure and transaction limits are important elements in the management of risk. Well-designed limit structures help ensure GRDA does not assume greater aggregate risk than is intended and helps ensure risk taking at the transaction level is appropriate under the circumstances.

A. **Term/Maturity Limits:** A 30 day maturity limit applies for all physical power sales activity. Physical power sales in excess of 30 days may be executed only upon approval of the GRDA ROC.

A one year term limit applies to all power and natural gas purchase activity except to the extent such purchases are made in accordance with an Energy Hedging Program that has been presented to the Board. Purchases made in accordance with a Board approved Energy Hedging Program will not be subject to the one year term limit. Physical power purchases for a term greater than one year may be executed only upon approval of the GRDA Board.

B. **Volume Limits:** The total volume of hedge transactions may not exceed the volume of the hedged commodity.

C. **Locational Limits:** The hedging of locational risks involves the use of Auction Revenue Rights and Transmission Congestion Rights as administered by SPP. Non-Commodity transactions must pass hedge effectiveness testing under Governmental Accounting Standards Board Statement No. 53.

D. **Power Cost at Risk Limits:** Market risk exposure associated with GRDA positions shall be quantified using Power Costs at Risk (PCaR). PCaR is the difference between the total expected revenues from the Fuel Component of the Base Energy Charge Plus any Power Cost Adjustment and the potential revenue requirement needed to fully cover potential net fuel and purchase power costs. This metric shall be reviewed at least on an annual basis taking into account changes in GRDA's net positions and market conditions.
The management of GRDA’s Power Costs at Risk metric is further described in GRDA’s *Energy Hedging Program*.

E. Exceedance of Limits: In the event a limit is exceeded, unless specified elsewhere in this Policy, the ROC will be notified as soon as possible. The CFO will report all exceptions to the Board.

VI. CREDIT POLICY

GRDA recognizes the potential for significant losses due to events of financial default or the failure to perform by GRDA’s counterparties.

GRDA adheres to the credit policies and credit limits set forth in this Policy. GRDA’s management determines the credit quality of counterparties based upon various credit evaluation factors, including collateral requirements under certain circumstances.

In order to manage credit risk, GRDA has established the following policies:

1. Commodity transactions, both physical and financial, will be entered into only with approved counterparties who have sufficient remaining credit to support the transaction;

2. Counterparties will be evaluated using GRDA’s methodology listed below. Each new Counterparty Credit Limit or increase to an existing limit will then be taken before the ROC for approval. Each counterparty will be reassessed no less than annually;

3. The status of credit risk will be tracked by counterparty at the agreement level and the information made available monthly to GRDA’s trading and scheduling personnel and those responsible for risk oversight;

4. GRDA shall not intentionally exceed the Counterparty Credit Limit with any counterparty without the approval of the ROC; the ROC may grant short-term exceptions as necessary to accommodate operational requirements. Specifically, violation of Counterparty Credit Limits is permissible in must sell situations. Changes in transaction value against the fair replacement value can result in credit exposures beyond the assigned credit limit.

A. Master Agreements: GRDA may also enter into transactions executed under a Master Agreement, Participation Agreement or non-industry standard
Agreement with an approved counterparty. GRDA’s legal department will maintain all signed agreements with all counterparties approved for transactions.

B. Measuring Credit Risk: GRDA’s Middle Office will publish a monthly credit report that is available to the trading and scheduling desk. This credit report will be reported at an agreement level and based on the same forward prices used for calculating the mark-to-market. It will include the following:

1. The billed receivable and payable balance;
2. The unbilled receivable and payable balance;
3. For forward transactions, credit exposure will be based on deal type and may be the expected notional value of the deal or some other form of measurement of credit exposure.

The ROC will monitor overall credit utilization and any credit exceptions at least monthly.

Until a master netting and setoff agreement is in place with a counterparty, separate credit exposures for each counterparty will be calculated for each Master Agreement and will be added together to derive the total credit exposures. Negative exposures under one master agreement will not offset a positive exposure under another master agreement.

C. Analysis and Extension of Credit Limits: Transactions will be executed only with counterparties approved by the ROC with credit available to support the transactions. The creditworthiness of a counterparty will be determined by both qualitative and quantitative factors. Factors shall include, but not be limited to:

1. A company’s credit ratings provided by the rating agencies;
2. Financial data such as an analysis of the income statement, balance sheet, and cash flow, as well as liquidity and capital structure;
3. Subjective factors such as a company’s fuel diversity, overall size, risk management policy and internal controls, geographic diversity, and market intelligence.

A credit limit is the amount of unsecured credit granted to a counterparty. Unsecured credit exposure includes amounts owed by the counterparty,
whether billed or not, and the mark-to-market differences in value of any collateral which the counterparty has provided GRDA. Maximum credit limits, as determined by Rating Agency ratings for counterparties other than ISDA counterparties (e.g., certain financial institutions), shall be evaluated as follows.

<table>
<thead>
<tr>
<th>Rating (S&amp;P equivalent)</th>
<th>Maximum Credit Limit</th>
</tr>
</thead>
<tbody>
<tr>
<td>AA and higher</td>
<td>$15,000,000</td>
</tr>
<tr>
<td>A</td>
<td>$10,000,000</td>
</tr>
<tr>
<td>BBB</td>
<td>$5,000,000</td>
</tr>
</tbody>
</table>

Counterparties that are not rated or below investment grade, in most situations, will have credit limits equal to collateral posted. The collateral posting requirements will be determined by the Middle Office.

Any net exposure above the collateral threshold will require the posting of collateral by the counterparty or trading with this counterparty will be halted until there is credit available to support trading activities.

The maximum credit limits for counterparties with which GRDA contracts pursuant to an International Swaps and Derivatives Association, Inc. Master Agreement and its associated Annexes ("ISDA") shall be limited to $20,000,000.

A credit limit for the Southwest Power Pool is not subject to the Maximum Credit Limits defined above.

D. Credit Exceptions: All GRDA personnel executing transactions, either physical or financial, are constrained by the counterparty credit limits. The ROC can suspend trading activity with a counterparty if the counterparty’s exposure has been reached or the activity exceeds the counterparty limit.

All credit exceptions will be documented and reported to the ROC and the Board as Policy Exceptions.

VII. REPORTING

A. Key to the energy risk management associated with this Policy is the monitoring of risks and the accurate and timely reporting of information to all parties involved in any aspect of energy risk management. Such monitoring and reporting allows those parties to perform their functions appropriately. Reports will be provided for distribution to the ROC, which provide details on the organization’s overall risk exposure as follows:
1. Transaction Activity Report that shows all transactions executed for a trade day;

2. Counterparty Credit Exposure Report that conveys exposures resulting from the transactions covered under this Policy. This report should include counterparty credit ratings and will be provided to the Board on a monthly basis;

3. Transaction Compliance Report that assures the ROC that GRDA is within all limits set forth in the Policy; and

VIII. INFORMATION TECHNOLOGY

A. Information Technology is central to ensuring GRDA's is able to conduct and account for business in the wholesale power markets. GRDA has also developed the 1300 Recovery Operations Process that is tested no less than annually

IX. ACKNOWLEDGEMENT

A. The Energy Risk Management Policy applies to all GRDA employees engaged directly or indirectly in transacting in the energy markets. Consistent with the Board’s business practice policies, GRDA must maintain awareness of all risks it faces in the marketplace. It is critical that all members of the organization have awareness that participation in the energy business entails a host of risks and that all members have knowledge of the Energy Risk Management Policy.

After Board approval of changes to GRDA’s Energy Risk Management Policy, the changes to the Policy will be communicated to GRDA staff. All GRDA staff engaged directly or indirectly with transactions covered under the Policy shall acknowledge they:

1. Understand the changes to the Policy;

2. Understand any policies or procedures referenced in the Policy; and

3. Will comply with the Policy.
X. APPENDIX

A. Authorized Product List: The purpose of the Authorized Product List is to ensure proper controls are in place to minimize risk when transacting under Master and Participation Agreements. In general the types of products to be purchased and sold include electricity, capacity, transmission, ancillary services, congestion rights, renewable energy, natural gas, transportation, and storage. Approved products will be limited to purchases to meet load and/or sales incidental to load for the following:

1. Physical/Financial Power Products
   a. Fixed Price Energy Commodity
   b. Indexed Price Energy Commodity
   c. Transmission
   d. Financial Commodity Options (Energy)
   e. Electric Ancillary Services
   f. Financial Swap (Energy)

2. Physical/Financial Natural Gas Products
   a. Fixed Price Natural Gas
   b. Indexed Price Natural Gas Commodity
   c. Financial Commodity Options (Natural Gas)
   d. Financial Swap (Natural Gas)

3. Physical Environmental Products
   a. n/a

4. Southwest Power Pool Products
   a. Virtuals in the Southwest Power Pool Integrated Market
   b. DA Demand Bids and Generation Offers
   c. Bilateral Settlement Schedules
   d. Export/Import Interchange Transactions
   e. Transmission Congestion Rights (TCR) and Annual Auction Revenue Rights (ARR)
## B. Authorized Traders

Risks Associated with this Product:

Other items that need to be known about this product:

- All risks are identified and understood by the GRDA Risk Oversight Committee, traders, and support staff at GRDA.
  
  **Middle Office/ Front Office/ Back Office**

- Analysis demonstrates the expected reward is not exceeded by the combined costs of the transaction, including portfolio-wide risks and operational outlays.
  
  **Middle Office**

- A system is in place for measuring, monitoring and reporting the risk associated with the product.
  
  **Middle Office**

- Contract terms are unambiguous and have been reviewed and approved by General Counsel.
  
  **Middle Office**

- Information Technology has reviewed and is prepared for the impact on GRDA systems.
  
  **IT Director**

- Payment sources and priorities.
  
  **Middle Office**

- Support staff involved in transaction processing (confirmations, scheduling, settlements, and accounting) have received adequate training and demonstrate familiarity with the products.
  
  **Front Office/ Middle Office/ Back Office**
D. Glossary

1. Back Office - That part of a trading organization which handles transaction accounting, confirmations, management reporting, and working capital management.

2. Basis Risk - The difference between the index used in a financial hedge versus the physical commodity being hedged. For example, if a company hedged future purchases of natural gas with an index based on the price of natural gas at a certain delivery point, a risk would exist that the price of natural gas delivered to the company would go up and the price of natural gas at the financial delivery point (Henry Hub) would not.

3. Budget Risk - The risk associated with not hitting or falling outside a tolerance band of an organization's budget.

4. Capacity - The real power output rating of a generator or system, typically in megawatts, measured on an instantaneous basis.

5. Commodity - A basic good used in commerce that is interchangeable with other commodities of the same type. Commodities are most often used as inputs in the production of other goods or services. The quality of a given commodity may differ slightly, but it is essentially uniform across producers. When they are traded on an exchange, commodities must also meet specified minimum standards, also known as a basis grade.

6. Counterparty – The other party that participates in a transaction. Every transaction must have a counterparty for a transaction to take place. More specifically, every buyer must be paired with a willing seller and vice versa.

7. Credit Risk – The uncertainty of a company’s financial performance due to the chance of non-performance in payment or delivery.

8. Electric and Gas Master Agreement – An agreement reached between two parties that outlines terms including but not limited to billing, deal confirmation, credit and collateral terms. Examples of types of Master Agreements include EEI, ISDA, Power, NAESB and WSPP.

9. Execution Risk – The uncertainty of a company’s financial performance due to the lack in the speed or accuracy of the transaction execution.
10. **Financial Product** – Any Future, Swap or Options contract, or any combination thereof, with any approved physical or Financial Product as the underlying commodity or instrument, which customarily settles financially and in which the primary intent is to settle the transaction financially.

11. **Front Office** – That part of a trading organization which solicits customer business, services existing customers, executes trades and ensures the physical delivery of commodities.

12. **Hedging Transaction/Hedge** - A transaction designed to reduce the exposure of a specific outstanding position or portfolio; "fully hedged" equates to complete elimination of the targeted risk and "partially hedged" implies a risk reduction of less than 100%.

13. **Mark-to-Market** – A measure of the current value of unrealized positions; both Open Positions and Closed Positions. The total value of Unrealized Gains/ (Losses) is the Mark-to-Market value.

14. **Market Risk** – The exposure an organization faces due to changes in the value of market variables.

15. **Maturity** - The time between the date on which a transaction is executed to the last date that power or gas will flow (in the case of physical transactions) or be settled financially (in the case of financial transactions).

16. **Middle Office** – That part of a trading organization that measures and reports on market risks, develops risk management policies and monitors compliance with those policies, manages contract administration and credit, and keeps management and the Board informed on risk management issues.

17. **Model Risk** – The uncertainty of a company’s financial performance due to inaccurate or incomplete models being used to evaluate a particular transaction.

18. **Operational Risk** – The uncertainty of a company's performance due to imperfections in the quality, scope, content, or execution of human resources, technical resources, systems, and/or operating procedures.
19. **Option** - The right but not the obligation to buy or sell the underlying asset at a specified price for a specified period of time.

   a. **Call Option** – A contract between two parties (buyer and seller) in which the buyer of the option has the right, but not the obligation to buy an agreed quantity of a particular commodity or financial instrument from the seller of the option at a certain time (the expiration date) for a certain price (the strike price). The seller is obligated to sell the commodity or financial instrument should the buyer so decide. The buyer pays a fee (called a premium) for this right.

   b. **Put Option** – A contract between two parties (buyer and seller) in which the buyer of the option has the right, but not the obligation to sell an agreed quantity of a particular commodity or financial instrument to the seller of the option at a certain time (the expiration date) for a certain price (the strike price). The seller is obligated to purchase the commodity or financial instrument should the buyer so decide. The buyer pays a fee (called a premium) for this right.

20. **Policy** – GRDA's Governing Policy for Energy Commodity Risk, as amended and approved by The Board of Directors.

21. **Portfolio** – A collection of transactions.

22. **Price Risk** – The uncertainty of a company’s financial performance due to uncertain future price levels.

23. **Power Costs at Risk** (PCaR) – A risk measurement method that summarizes the uncertainty and potential impact on customer rates over a specific period of time.

24. **Regulatory Risk** – The uncertainty of a company’s financial performance due to potential change in laws and/or regulations.

25. **Speculative Trading** – Trading purely to generate trading profits by buying or selling physically or financially derived electricity or natural gas instruments, which are not backed by generation assets and/or physical purchases of energy.

26. **Swap** – In general terms, a swap includes most financially settled transactions not including futures or options on futures. The term "Swap" is further defined in 7 U.S.C. 1a (47).
27. **Trading** – The buying and selling of physical and financial transactions to realize profits, take advantage of market inefficiencies, or capture current market prices or price relationships.

28. **Term** – The total duration of a contract, defined as the number of days between the beginning flow date and ending flow date, inclusive.

29. **Volume Risk** - The uncertainty of a company’s performance due to the uncertainty in native load peak demand and energy volumes, and in the quantity of energy deliveries under variable-take energy sales contracts and/or options contracts.
E. Acronym List

1. CEO – Chief Executive Officer
2. CFO – Chief Financial Officer
3. COO – Chief Operating Officer
4. ROC – Risk Oversight Committee
5. SPP IM – Southwest Power Pool Integrated Marketplace
6. WSPP – Western Systems Power Pool
New Product Authorization

Approval of New Product Procedures

Product: Fixed Price Energy Commodity

Description of Product: Firm Energy with liquidated damages, fixed price physical at a point outside of SPP delivered at a specified location.

Intended Use: To make imports/exports Interchange Transactions.

Risks Managed by this Product: To arbitrage prices in and out of SPP market footprint.

Risks Associated with this Product: Price Risk.

Other items that need to be known about this product:

- All risks are identified and understood by the GRDA Risk Oversight Committee, traders, and support staff at GRDA.
  
  Middle Office/Front Office/Back Office

- Analysis demonstrates the expected reward is not exceeded by the combined costs of the transaction, including portfolio-wide risks and operational outlays.
  
  Middle Office

- A system is in place for measuring, monitoring and reporting the risk associated with the product.
  
  Middle Office

- Contract terms are unambiguous and have been reviewed and approved by General Counsel.
  
  Middle Office

- Information Technology has reviewed and is prepared for the impact on GRDA systems.
  
  IT Director

- Payment sources and priorities.
  
  Middle Office

- Support staff involved in transaction processing (confirmations, scheduling, settlements, and accounting) have received adequate training and demonstrate familiarity with the products.
  
  Front Office/Middle Office/Back Office

Approval of New Product Procedures

Product: Indexed Price Energy Commodity

Description of Product: A daily cash settled Exchange Futures/Swaps contract based upon the mathematical average of peak/off-peak hourly electricity prices published by SPP for the location specified.

Intended Use: To ensure price certainty and reduce exposure to SPP IM market volatility for total load.

Risks Managed by this Product: Price volatility in SPP IM market. Also reduces transaction risk.

Risks Associated with this Product: Price risk, and exposure to the movement of the price of the defined product setting the index.

Other items that need to be known about this product:

- All risks are identified and understood by the GRDA Risk Oversight Committee, traders, and support staff at GRDA.
  
  Middle Office/Front Office/Back Office ______________________

- Analysis demonstrates the expected reward is not exceeded by the combined costs of the transaction, including portfolio-wide risks and operational outlays.

DEVELOPMENT OF ANNUAL BUDGET
AND PROVISION FOR BOARD REVIEW

I. OBJECTIVE: To establish an annual budget of the Authority sufficient to maintain the system in good working order and repair such that the operating efficiency will be of high character and operated in an efficient and economical manner; and to provide for the amount, if any, necessary to maintain the required balance in the Debt Service Reserve Account in the manner required under the Base Bond Resolution No. 5107.

II. POLICY: The Board of Directors of the Authority shall adopt an annual budget of the Authority on or before its regularly scheduled December meeting.

The annual budget shall be prepared for the calendar year and will include the following items:

A. estimated revenues;
B. aggregate bond service requirement;
C. estimated operating and maintenance expenses;
D. estimated requirements for the Bond Service Reserve Account;
E. outstanding subordinated debt service requirements, if any; and
F. general operating fund balance and any other requirements of the system and base bond resolution.

A comparison of the budgeted and actual financial results will be submitted to the Board of Directors no less than quarterly.

III. RESPONSIBILITY: The annual budget shall be prepared by the GRDA staff under direct supervision of the Treasurer/Chief Financial Officer. The budget shall be reviewed prior to submission to the Board of Directors by Senior Management and the Audit, Finance, Budget and Policy Committee. The Treasurer/Chief Financial Officer shall provide oversight and maintain coordination of the preparation and review of the annual budget and report directly to the CEO on all matters relating to the policy.

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.

INVESTMENT OF FUNDS

I. OBJECTIVE: To invest the funds in a manner which will provide the maximum security with the best investment return, while meeting the daily cash flow demands of the Authority and conforming to all bond resolutions or indentures and state law. The primary objectives, in priority order, of the Authority’s investment program shall be:

A. Safety: Safety of principal is the foremost objective. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. To attain this objective, the Authority will diversify its investments by investing funds among a variety of securities offering independent returns.

B. Liquidity: The investment portfolio will remain sufficiently liquid to enable the Authority to meet all operating requirements which might be reasonably anticipated.

C. Return on Investment: The investment policy shall be designed with the objective of attaining a benchmark rate of return throughout budgetary and economic cycles, commensurate with the investment risk constraints and the cash flow characteristics of the portfolio.

II. POLICY:

A. Conflict of Interest. All employees involved in the investment process shall refrain from personal business activity or other activities that could conflict with proper execution of investments, or that could impair their ability to make impartial investment decisions. Employees must disclose all conflicts of interest and potential conflicts of interest related to the investment process.

B. Investments shall be deposited in the name of the Authority in one or more banks or trust companies organized under the laws of any state of the United States which is willing and able to accept the reasonable and customary terms and authorized by law to act in accordance with the provisions of Resolution 5107.

C. Securities shall generally be held until maturity. Securities may be sold due to liquidity needs of the portfolio, to minimize loss of principal, or to improve the quality, yield, or target duration in the portfolio. Securities shall be booked at the amortized cost and marked to fair value monthly.
D. The Authority is permitted to invest in the following categories of investments:

1. United States Treasuries — Bills, Notes and Bonds and obligations fully insured or unconditionally guaranteed as to the payment of principal and interest by the United States government or any of its agencies or instrumentalities.

2. United States Government Agency Securities:
   a. Issued by one of the following agencies:
      
      Federal National Mortgage Association
      Federal Home Loan Bank
      Federal Farm Credit Bank
      Federal Home Loan Mortgage Corporation
      Government National Mortgage Corporation
      Farmers Home Administration

3. Obligations of State and Local Governments, including obligations of Oklahoma state public trusts, provided at the time of purchase such obligations are rated in either of the top two categories by Moody's, S&P, or Fitch:
   a. Issued by any state, other than Oklahoma, of the United States of America, provided the full faith and credit of such state is pledged
   b. Issued by any Oklahoma State Trust
   c. Issued by any Oklahoma state or local government

4. Obligations of Public Agencies or Municipalities:
   a. New Housing Authority Bonds issued by public agencies or municipalities and fully secured by a pledge of annual contributions as to the payment of principal and interest under Contracts with the United States of America.
   b. Project Notes issued by public agencies or municipalities and fully secured by a requisition or payment agreement with the United States of America as to the payment of principal and interest.
5. Collateralized or Insured Certificates of Deposit or other evidences of Deposit:
   a. Issued by a bank, savings bank, savings and loan association, or credit union located in Oklahoma, provided any uninsured amounts must be collateralized.
   b. Certificates of Deposit Account Registry Service (CDARS) may include financial institutions located outside Oklahoma, provided the CDARS investment is fully FDIC insured.

6. Negotiable certificates of deposit, provided at the time of purchase such CD’s short term rating must be at least “A-1” by S&P or “P-1” by Moody’s:
   a. Issued by a nationally or state-chartered bank, a savings bank, a savings and loan association or a state-licensed branch of a foreign bank.

7. Money market mutual funds and short term bond funds, provided rating must be “AAA” or the equivalent:
   a. Fund investments consist of:
      Obligations of the United States government and U.S. government sponsored enterprises and obligations fully insured or unconditionally guaranteed as the payment of principal and interest by the United States government or any of its agencies and instrumentalities.
      Repurchase agreements collateralized by obligations of the United States government and the U.S. government sponsored enterprises.

8. Cash sweep or short-term investment funds deposited with domestic commercial banks in the two highest long-term rating categories of the highest short-term rating category available by Moody’s or S&P and which are insured by the Federal Deposit Insurance Corporation or fully secured by obligations described below:
a. Obligations of the United States government and U.S. government sponsored enterprises and obligations fully insured or unconditionally guaranteed as the payment of principal and interest by the United States government or any of its agencies and instrumentalities.

9. Investment agreements:
   a. Issued with companies or banks whose senior debt obligations are rated no lower than the second highest rating category given by either Moody’s, S&P, or Fitch at the time of the execution and delivery of such agreement.

10. Repurchase agreements and tri-party agreements:
    a. Investment must be collateralized by:

    Obligations of the United States government and U.S. government sponsored enterprises and obligations fully insured or unconditionally guaranteed as the payment of principal and interest by the United States.

    b. Counterparties must have a minimum short-term debt rating must be no lower than “A-1” by S&P and “P-1” by Moody’s, or the equivalent AND must be either:

    A diversified securities broker-dealer who is a member of the National Association of Securities dealers having $5 billion in assets and $350 million in capital and subject to regulation of capital standards by any state or federal regulatory agency; or

    A bank, savings bank or savings and loan association having $5 billion in assets and $500 million in capital and regulated by the Superintendent of Financial Institutions, or through an institution regulated by the Comptroller of the Currency, Federal Deposit Insurance Corporation, or Board of Governors of the Federal Reserve System.

E. Diversification is desirable in order to reduce overall portfolio risk resulting from an over-concentration of assets. Investments shall be diversified by security type and maturity. With the exception of U.S. Treasury securities and obligations fully insured or unconditionally guaranteed as to the payment of principal and interest by the United States government or any of its agencies and instrumentalities, no more than 50% of the Authority’s total funds available for investment will be invested in a single security type. The following diversification limitations shall be imposed on the portfolio:
1. Securities of United States government sponsored enterprises may not exceed 70% of the total funds available for investment, nor may be more than 35% of the total funds available for investment be invested in any one issuer. Mortgage-backed pass-through securities may not exceed 25% of the total funds available for investment.

2. Collateralized or insured certificates of deposit and other evidences of deposit may not exceed $5,000,000 with any one financial institution, unless the deposit is in the form of a Certificate of Deposit Account Registry Service (CDARS). Investments in CDARS may not exceed the maximum FDIC insured level of $50 million with any one financial institution.

3. Negotiable certificates of deposit shall not exceed 7.5% of the total funds available for investment, nor may more than 2.5% be invested in any one commercial bank.

4. Obligations of state and local governments, including obligations of Oklahoma state public trusts shall not exceed 10% of total funds available for investment, nor may more than 5% of the total funds available for investment be invested in the obligations of any one issuing government.

5. Money Market Mutual funds shall not exceed 30% of the total funds available for investment, nor shall more than 15% of the total funds available for investment be invested in any one fund. The calculation of the money market mutual funds percentage shall not include funds restricted by Forward Investment Agreements, funds required to be liquid for semi-annual debt service payments and monies held in money market accounts that are in the process of being reinvested.

6. Cash sweep or similar account arrangement of the Bond Fund Trustee shall not exceed 30% of the total funds available for investment.

7. Investment Agreements shall not exceed 35% of the total funds available for investment, nor shall more than 35% of the total funds available for investment be invested in with any one company or bank.

8. Repurchase Agreements and tri-party repurchase agreements shall not exceed 30% of the total funds available for investment, nor may more than 10% of the total funds available for investment be invested with any counterparty.
F. The investment portfolio shall maintain sufficient liquidity to enable the Authority to meet all operating requirements which might be reasonably anticipated. The balance of the portfolio may be actively managed to meet return on investment objectives, respecting safety as a first priority. Investments may be invested and reinvested to mature not later than such times as shall be necessary to provide moneys when anticipated to be needed for payments.

1. Investments held in the following funds may be invested and reinvested by the Authority:
   a. Revenue Fund
   b. General Reserve Fund

2. Investments held in the following funds may be invested and reinvested by the Construction Fund Trustee:
   a. Construction Funds

3. Investments held in the following funds may be invested and reinvested by the Bond Trustee to the fullest extent practicable:
   a. Debt Service Fund

4. Investments held in the following funds may be invested and reinvested by the Bond Trustee to the fullest extent practicable, provided the maturity shall also not be later than 10 years from the date of such investment unless invested under an investment agreement that permits withdrawals without penalty when needed.
   a. Debt Service Reserve Fund

G. Maturities of individual securities from the date of purchase shall also be limited as follows:

1. United States Treasury Securities and obligations fully insured or unconditionally guaranteed as to the payment of principal and interest by the United States government or any of its agencies and instrumentalities shall not exceed 10 years to maturity.

2. Securities of U.S. government sponsored enterprises shall not exceed 10 years to maturity. The average life of mortgage-backed pass-through securities shall not exceed 10 years based on a nationally recognized, publicly available model to determine the prepayment speed and average life of a security.
3. Collateralized or insured certificates of deposit and other evidences of deposit shall not exceed 365 days, excluding weekends and holidays to maturity.

4. Negotiable certificates of deposit shall not exceed 180 days to maturity.

5. Obligations of state and local governments, including obligations of Oklahoma state public trusts, shall not exceed 15 years.

6. Investment agreements shall not exceed 30 years.

7. Repurchase Agreements and tri-party repurchase agreements shall not exceed 14 days excluding weekends and holidays.

III. RESPONSIBILITY: The CEO with the advice and counsel of the Treasurer/Chief Financial Officer shall provide oversight and supervision of the investment policy and shall report directly to the GRDA Board of Directors on all matters relating to the policy. Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital, as well as the probable income to be derived. Individuals acting in accordance with these written policies and procedures and exercising due diligence under a standard of a "prudent person" and/or "prudent investor" shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse developments.

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.

SECURITY DEPOSIT REQUIREMENTS FOR INDUSTRIAL AND COMMERCIAL CUSTOMERS

I. OBJECTIVE: To establish guidelines for the Authority in administering the security deposits required from an Industrial or Retail Customer.

II. POLICY: The Board of Directors of the Authority is responsible for the prudent management of the Authority’s finances. For new industrial and commercial customers, a deposit for utility services is collected as security that all bills will be paid in full by their due date. The security deposit protects the Authority from significant financial losses resulting from the non-payment of bills. A security deposit in the amount of two (2) months of the customer’s estimated bill shall be collected at the time service is initiated. Additionally, the customer shall grant the Authority a security interest in the deposit. Deposits may be in one of the following forms:

A. Cash Deposit: The customer may pay a cash deposit, together with a Deposit Agreement, which grants the Authority a security interest in the deposit. All cash deposits will be refunded promptly and automatically when service is terminated in accordance with the terms of the Power Purchase Contract. All outstanding amounts on the final bill will be deducted from the cash deposit amount.

B. Utility Bond: The customer may supply an unconditional surety bond equal to the amount specified as the deposit, valid for the life of the Power Purchase contract. The bond must be written in a form satisfactory to the Authority by a surety company licensed to do business in the State of Oklahoma, rated “A” or better from A.M. Best Company, and of a Financial Size Category of IX or better.

C. Letter of Credit: The customer may supply an unconditional and irrevocable Letter of Credit issued by a financial institution authorized to do business in the State of Oklahoma that carries a credit rating of “A” or better and which has a net worth of no less than ten (10) times the amount of the Letter of Credit. The Letter of Credit must be valid for the life of the Power Purchase Contract and be written in a form satisfactory to the Authority.

D. Substitution by Customer: In the event a customer desires to replace a cash deposit with a Utility Bond or Letter of Credit, the customer will be required to obtain the bond or letter of credit in an amount equal to three (3) months of the customer’s highest month in the preceding twelve (12) months.
SECURITY DEPOSIT REQUIREMENTS FOR
INDUSTRIAL AND COMMERCIAL CUSTOMERS

III. RESPONSIBILITY: The administration of the security deposit shall be the responsibility of the Treasurer/Chief Financial Officer. The Treasurer/Chief Financial Officer shall provide oversight and supervision of the administration and report directly to the CEO on matters relating to the policy.

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.

James B. Richie, Chair
Daniel S. Sullivan, President/CEO
POLICY ON BOND ISSUE TAX CODE AND SECURITIES LAW COMPLIANCE

I. GENERAL:

The GRDA, which from time to time issues bonds, notes or other obligations to accomplish the purposes for which it was created, hereby states its official policy that it shall comply fully with all applicable requirements of Oklahoma and Federal law pertaining to issuance and existence of governmental bonds, including but not limited to, provisions of the United States Internal Revenue Code (as amended, with attendant rules and regulations, the "Code"), provisions of Federal securities laws, including those statutes, rules and regulations pertaining to the Securities and Exchange Commission ("SEC"), and requirements of other State and Federal administrative and regulatory agencies pertaining to the issuance, sale, delivery, existence and payment of bonds.

II. ADMINISTRATION:

The CEO with the advice and counsel of the Treasurer/Chief Financial Officer shall provide oversight and supervision of the bond compliance policy and shall report directly to the GRDA Board of Directors on all matters relating to the policy. The day-to-day operation of GRDA, including, but not limited to, actions to obtain and maintain compliance with applicable State and Federal laws, shall be conducted by the Treasurer/Chief Financial Officer of GRDA. In event of the absence or incapacity of the Treasurer/Chief Financial Officer, the Deputy Chief Financial Officer shall be responsible for such functions. Provided, the above named individuals shall be responsible to, and under the direction of, the GRDA CEO and/or the Board.

The Treasurer/Chief Financial Officer of GRDA (or in his or her absence or incapacity, the Deputy Chief Financial Officer) shall have and exercise the duty of assuring compliance with applicable State and Federal laws relating to GRDA bonds. This duty shall include the keeping of books and records of GRDA in a full and accurate manner, and the reporting of activities of GRDA to appropriate State and Federal authorities which may include, but
POLICY ON BOND ISSUE TAX CODE AND SECURITIES COMPLIANCE

not be limited to, the GRDA Board, the Oklahoma State Bond Advisor, the Oklahoma Securities Commission, the United States Internal Revenue Service ("IRS"), the United States Securities and Exchange Commission ("SEC") and such other boards and agencies with jurisdiction over the process of issuing bonds by GRDA. Such activities shall include actions to assure compliance with laws, rules and regulations relating to GRDA or other governmental bonds after the time such bonds are issued.

III. BOND ISSUANCE:

The Chief Financial Officer shall maintain (or cause to be maintained), in either paper or electronic format, full and correct copies of all proceedings relating to the approval, sale, issuance, delivery and use of GRDA bonds. Such proceedings shall include:

A. A complete transcript of proceedings relating to each GRDA bond issue, including all GRDA Board resolutions and all documents relating to such bond issue, and related approvals.

B. A complete accounting of all costs of issuance of each individual GRDA bond issue, including, but not limited to, fees and expenses, as applicable, of:

1. Bond Counsel;
2. Securities Counsel;
3. Special Tax Counsel;
4. Accountants or providers of bond financial analysis;
5. Approval by the Council on Bond Oversight and/or the State Bond Advisor;
6. Rating Agencies;
7. Providers of bond insurance, letters of credit or other forms of credit enhancement;
8. Trustee bank(s) or the State Treasurer (if acting as bond trustee) including acceptance fees;
9. Providers of investment services, including investment of bond proceeds;
10. CUSIP or similar bond registration services;
11. Attorney General document preparation and transcript review services;
12. Providers of printing services for bonds, or official statements;
13. Administrative fees if any of GRDA;
14. Fees for appraisal, demand surveys or feasibility studies for bond-financed property; and
15. Services of any and all other providers related to the GRDA bond issue.

C. All leases, subleases or use agreements relating to the bond-financed property.

D. A complete accounting of all receipts, including but not limited to, rental or lease revenues, administrative and other fees, and investment earnings in relation to the bonds.

E. A complete accounting of all payments of principal of, and interest or premiums on the bonds.

F. Computation on the arbitrage yield, net interest cost and true interest cost of the bonds, any and all Form 8038's or similar IRS reports reflecting bond issuance and costs, and evidence of timely filing of such reports.

G. Computation, in accordance with Code requirements, of arbitrage yield restriction and rebate, if any, due the United States, and evidence of timely payment of any such liability.

H. A detailed accounting of the purposes or projects for which bond proceeds are used, and any change in such purpose or project during the course of its acquisition or construction.

I. A detailed accounting of the expenditure of bond proceeds for project purposes, including copies of requisitions, invoices and bills together with contracts for construction, renovation or acquisition of bond financed facilities, a time line or draw schedule indicating the date of such expenditure, and a detailed list of assets acquired.

J. Evidence of the retirement, redemption, refunding, reissuance or restructuring of such bonds, including dates of such occurrences.

K. A complete accounting of administrative or other fees or expenses charged or incurred in connection with the particular GRDA bond issue.

L. Newspaper articles, brochures or other publications relating to the bond issue.

M. Accounting for any federal or state government grants received related to the project.
POLICY ON BOND ISSUE TAX CODE AND SECURITIES COMPLIANCE

N. Periodic statements of bond trustees for the bond issue.

O. Audited financial statements of GRDA relating to the bond issue.

P. Correspondence (letters, e-mails, faxes, etc.) related to the bond issue or project.

Q. Reports of any prior IRS examinations of GRDA or the bond issue.

R. All guaranteed investment contracts or other investment instruments for bond proceeds.

S. All agreements for swaps or financial derivatives, and an accounting for the income and expenses related to such financial instruments relating to the bonds.

T. Contracts, agreements or other evidence relating to the bidding and cost of financial products.

U. All documents, agreements or instruments of whatsoever kind or character (including, but not limited to, leases, subleases, naming rights, management agreements, etc.) relating to use of any part of the bond-financed property or project for private business use (including 501(c) corporations), and accounting of any revenues received in relation thereto.

V. Agreements with underwriters or other persons regarding the obligation of GRDA to provide continuing disclosure of information pertinent to the bonds after closing.

Notwithstanding any provisions of Oklahoma law relating to document retention to the contrary, the above records, in either paper or electronic format, shall be retained for a period of not less than the term of the bonds plus three (3) years.

IV. POST-BOND ISSUANCE REQUIREMENTS:

The Chief Financial Officer (who may act on advice of bond counsel or other qualified tax or securities counsel, as appropriate) shall maintain, in either paper or electronic format, full and correct copies of all materials or proceedings required by applicable State or Federal tax and securities laws or rules to be kept in relation to substantial changes in the project or the bonds after the closing of the GRDA bond issue, and to
disclose such materials and changes, so as to fully comply with applicable tax and securities law laws, rules and regulations of the SEC, IRS and other regulatory agencies, and with provisions of any continuing disclosure agreements of GRDA related to the bonds.

Such records and disclosures in connection therewith, shall be kept or made in such a manner as to allow GRDA to fully comply with applicable laws, rules and regulations including, but not limited to, the following:

A. Change in use of the bond-financed project or property [Code §§103, 141 and related regulations]. The Chief Financial Officer shall, upon advice of qualified bond counsel or tax counsel experienced in such matters, shall undertake any remedial actions recommended by such counsel and approved by the GRDA Board and report a change in use of the bond financed project or facilities to the IRS in a timely fashion. A change in use may occur as a result of entering into asset sale contracts, leases, management or operation(s) contracts, research agreements, service contracts, incentive payment contracts, guarantee contracts, naming rights contracts, take or pay contracts, put or pay contracts, output contracts or joint ventures which may provide for or result in private business use and private payments and security of any portion of a bond-financed project or property.

B. The Chief Financial Officer will maintain a database of the amounts of private business use and private payments and security at each bond-financed project of property for each issue of GRDA bonds that financed or refinanced such bond-financed project or property for each annual period beginning from the issue date of each such issue until the final maturity or redemption of such issue and will update the database at least annually or whenever a material change in use of a bond-financed project of property occurs and is made known to the Chief Financial Officer. The Chief Financial Officer will consult with bond counsel in updating and maintaining the database.

C. The Chief Financial Officer will retain the services of an arbitrage consultant to prepare reports on the amounts of rebate liability and yield restriction liability for each issue of GRDA bonds required to be paid, if any, to the IRS. The Chief Financial Officer will make timely payments of all such liabilities and will maintain copies of all reports, evidences of payments and forms and correspondences filed with the IRS.
D. Occurrence of events required by continuing disclosure undertakings ("Undertakings") entered into by GRDA pursuant to Rule 15c2-12 promulgated by the SEC under the Securities Exchange Act of 1934 (17 CFR Part 240, §240.15c2-12) including any official interpretations thereof, as in effect on the date of the closing of GRDA bonds, to be reported to the Municipal Securities Rulemaking Board ("MSRB"). Such events shall consist of:

1. Principal and interest payment delinquencies.
2. Nonpayment related defaults, if material.
3. Unscheduled draws on debt service reserves reflecting financial difficulties.
4. Unscheduled draws on credit enhancements reflecting financial difficulties.
5. Substitution of credit or liquidity providers, or their failure to perform.
6. Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701 TES) or other material notices or determinations with respect to the tax status of the security, or other material events affecting the tax status of the security.
7. Modifications to rights of security holders, if material.
8. Bond calls, if material, and tender offers.
10. Release, substitution or sale of property securing repayment of the securities, if material.
11. Rating changes.
12. Bankruptcy, insolvency, receivership or similar event of GRDA. This event is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for GRDA in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or Federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of GRDA, or if such jurisdiction has been assumed by leaving the existing governing body and officials or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a
court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of GRDA.

13. The consummation of a merger, consolidation or acquisition involving GRDA or the sale of all or substantially all of the assets of GRDA, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material.

14. Appointment of a successor or additional trustee or the change of name of a trustee, if material.

Undertakings require the filing with the MSRB of (i) notices of such events (within 10 business days of the occurrence), (ii) audited (or, if they are not available, unaudited) financial statements and certain financial information and operating data as specified in the Undertakings (within 6 months after the end of each fiscal year), (iii) notices of material compliance failures, and (iv) other matters on a voluntary basis. The Chief Financial Officer shall determine the materiality of events for filing (where appropriate), the advisability of voluntary filings, the conformity of financial statements, financial information and operating data to the requirements of the Undertakings, and the accuracy of all filings, all in consultation with appropriate officers and employees of GRDA, and oversee and confirm the filings. The Chief Financial Officer shall review each Undertaking periodically, but at least annually, and make the appropriate filings, and in the manner, as required by the Undertakings. The Chief Financial Officer shall consult with qualified bond counsel when necessary with respect to compliance with the Undertakings.

Notwithstanding any provisions of Oklahoma law relating to document retention to the contrary, the above post-bond closing records, in either paper or electronic format, shall be retained for a period of not less than the term of the bonds plus three (3) years, or such longer time as recommended by qualified bond or tax counsel so as to allow GRDA to comply with all applicable tax and securities law requirements.

V. IRS INTERACTIONS

A. The Chief Financial Officer will promptly notify bond counsel upon receiving notification of an audit, an information document request or other similar document from the IRS with respect to any issue of GRDA Bonds and will coordinate with bond counsel in developing an effective plan for responding to the IRS.
POLICY NO. 5-4 (Continued)

POLICY ON BOND ISSUE TAX CODE AND SECURITIES COMPLIANCE

B. The Chief Financial Officer is aware that, when GRDA is unable to self-correct certain violations of the Code under the remedial action rules in § 1.141-12 of the tax regulations, GRDA may, pursuant to the Voluntary Closing Agreement Program ("VCAP") described in IRS Notice 2008-31 and Internal Revenue Manual 7.2.3.1, submit a request for a voluntary closing agreement with the IRS to correct such violations.

VI. CONTINUING EDUCATION

A. As an integral part of the Policy, GRDA will ensure that its officers and employees involved in tax compliance are sufficiently informed and understand the basic requirements of the tax-exempt requirements of the Code applicable to GRDA bonds. The Chief Financial Officer will continue to consult regularly with bond counsel regarding such Code requirements and changes to such Code requirements, and GRDA will regularly update the Policy to reflect any such changes. In addition, the Chief Financial Officer will consult regularly with the arbitrage rebate consultant to refine and improve its arbitrage rebate and yield restriction compliance efforts and update the Policy accordingly.

B. GRDA will arrange at least once annually to conduct classes and training sessions for its officers and employees involved in tax compliance and may enlist the arbitrage consultant and bond counsel in providing such continuing education.

ENVIRONMENTAL CONSIDERATIONS

I. OBJECTIVE: To establish a policy concerning environmental considerations in connection with the furnishing of an adequate and reliable supply of electric power and energy to customers.

II. POLICY: The Grand River Dam Authority will:

A. Plan, construct, and operate utility facilities so as to provide its customers with an adequate and reliable power supply that is compatible with the environment.

B. Place environmental considerations in proper perspective with other vital issues such as safety, reliability, and cost. This will include staffing of adequate personnel to implement an effective environmental policy.

C. Explore alternative actions in order to avoid adverse environmental effects, including cost-effective, pro-environmental energy sources.

D. Carefully assess the potential impact of its actions on physical, natural, and aesthetic resources in order to avoid adverse environmental effects, and restore or enhance environmental quality to the greatest extent practicable.

E. Endeavor to avoid actions which might contribute to pollution of the air, water, or land; threaten health and public welfare; damage ecological systems of Flora or Fauna; curtail the range of beneficial uses of the environment; or serve short-term objectives to the detriment of long-term environmental goals.

F. Endeavor to avoid actions which might be detrimental to or diminish public enjoyment of existing or planned recreation resources, or resources of historic and scenic value.

G. Endeavor to avoid actions which might conflict with existing or contemplated land-use planning policies or appropriate governmental bodies, or with other public services.

H. Fulfill its utility responsibilities in an environmentally aware and environmentally responsible manner; take affirmative action to actively cooperate with groups interested in environmental resources; and keep the public informed of significant construction plans.

I. Coordinate proposed transmission line construction to the maximum extent possible to avoid disruption of floodplains or wetlands where there is a practical alternative, and minimize environmental harm to floodplains and wetlands.
In implementing this policy on environmental considerations, the Grand River Dam Authority will be guided by the environmental criteria and guidelines issued by agencies of the Federal Government under the National Environmental Policy Act and, where appropriate, by environmental guidelines and criteria which might be issued by State and local governments in areas in which it operates.

III. RESPONSIBILITY: Board of Directors and Management.

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.

POLICY NO. 7-1

EQUAL EMPLOYMENT OPPORTUNITY AND AFFIRMATIVE ACTION

I. OBJECTIVE: To state the policy of the Authority with regard to equal employment opportunity and affirmative action.

II. POLICY:

A. The Authority is an equal opportunity employer and shall conduct activities according to state and federal laws and regulations addressing Equal Employment Opportunity. The Authority prohibits discrimination and harassment of any type and affords equal employment opportunities to employees and applicants for employment without regard to race, color, creed, religion, sex, age, disability, or national origin. This policy applies to all aspects of the relationship between the Authority and its employees and applicants, including:

1. Hiring, placement, promotion, transfer, demotion, discipline, advertising or solicitation for employment;
2. Selection for training, including apprenticeship;
3. Layoff or termination;
4. Rates of pay or other forms of compensation;
5. Working Conditions;

B. The Authority shall conduct all operations in a manner which ensures compliance with state and federal laws and regulations addressing Equal Employment Opportunity.

C. The Authority is committed to employ only U.S. citizens and aliens who are authorized to work in the United States.

III. RESPONSIBILITY: Board of Directors, CEO and GRDA employees.

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.

POLICY NO. 7-2

NEPOTISM

I. OBJECTIVES:
   A. To state the policy of the Authority with regard to the employment of "close relatives" of members of the Board of Directors and of existing employees of the Authority.
   B. To prohibit the possible undesirable influences of family relationships and to make employment available to as many different families as possible in view of the public service nature of the Authority's business.

II. POLICY: It shall be the policy of the Authority to fulfill the above objectives by establishing the following provisions:
   A. "Close relatives," as used in this policy, means persons related by affinity or consanguinity within the third degree (21 O.S. § 481). In addition, persons related by affinity or consanguinity shall be "close relatives" if such persons are members of the same household.
   B. No person shall be employed by the Grand River Dam Authority who is a close relative, as defined herein, to any member of the Board of Directors, the CEO, the General Counsel, or any corporate or executive officer. The CEO may waive this policy for temporary internships and educational opportunities, provided that neither is placed in a supervisory position over the other.
   C. Other than as mentioned in Paragraph II. B. above, the Authority may employ a close relative of an employee provided that neither is placed in a supervisory position over the other.

III. RESPONSIBILITY: Board of Directors, CEO and GRDA employees.

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.

Daniel S. Sullivan, President/CEO
I. OBJECTIVES:

A. To state the policy of the Authority with regard to sexual harassment and harassment in the workplace.

B. To ensure the Authority neither commits nor condones any action relating to sexual harassment or harassment which would constitute a violation of federal, state, and local law as well as applicable government regulations and executive orders.

II. POLICY: It shall be the policy of the Authority to fulfill the above objectives by establishing the following provisions:

A. The CEO shall take all necessary steps to ensure compliance with this policy.

B. Prohibited sexual harassment is defined as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when:

   1. Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment.
   2. Submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individuals.
   3. Such conduct has the purpose or effect of substantially interfering with an individual's work performance or creating an intimidating, hostile, or offensive working environment.

C. Prohibited harassment also includes unwelcome conduct that is based on race, color, creed, religion, sex, age, disability, or national origin. Harassment becomes unlawful where:

   1. Enduring the offensive conduct becomes a condition of continued employment.
   2. The conduct is severe or pervasive enough to create a work environment that a reasonable person would consider intimidating, hostile, or abusive.

D. Violations of this policy, regardless of whether an actual law has been violated, will not be tolerated. The Authority encourages employees to report all incidents of sexual harassment or harassment to the Human Resources Department, the Legal Department, or a member of management. The Authority will promptly, thoroughly, and fairly investigate every issue that is brought to its attention in this area and will take disciplinary action when appropriate, up to and including termination of employment.
III. RESPONSIBILITY: Board of Directors, CEO and GRDA employees.

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.

ALCOHOL AND CONTROLLED SUBSTANCES POLICY

I. OBJECTIVE: To state the policy of the Authority with regard to substance abuse in the workplace.

II. POLICY: It is recognized that the use and abuse of alcohol and controlled substances is one of the greatest health problems in the United States, one that touches every community and that is epidemic in scope. GRDA further recognizes that the state of an employee's health affects his or her job performance, the kind of work he or she can perform, and may offset opportunities for continued employment.

The use of controlled substances at any time by any GRDA employee constitutes a direct threat to the lives and property of citizens and the public health, safety, and welfare of all GRDA employees and creates a situation fraught with serious consequences to the general public at large. Additionally, the use of alcohol by an employee in a manner that affects his or her job performance or brings discredit upon GRDA constitutes a similar threat to both GRDA employees and to the general public. Accordingly, if an employee's personal habits or health problems affect his or her job performance, good management compels GRDA to become involved with these problems, and the legitimate interest of GRDA in becoming so involved must include a program designed to ensure that employees do not engage in drug abuse on or off the job or in alcohol abuse in a manner that affects their job performance or brings discredit upon GRDA.

Recognizing the problem of alcohol and controlled substance abuse and its potential danger is an important part of the solution to the problem. In this regard, GRDA has developed a comprehensive alcohol and controlled substances policy that will comply with the legal requirements of 49 C.F.R. § 40 and 382 et seq. and 40 O.S. §§ 551-563.

III. SCOPE OF PROGRAM:

A. All applicants and employees of GRDA are covered by this Alcohol and Controlled Substances Policy regardless of classification and job description.

B. GRDA prohibits the presence or use of alcohol or drugs by its employees on GRDA or customer property or premises, in GRDA vehicles, or while
employees are on the job, or in any situation where such use adversely affects the employees' performance.

C. All applicants for safety-sensitive positions as designated by the Board of Directors will be tested for alcohol and controlled substances upon a conditional offer of employment.

D. GRDA recognizes that certain sensitive positions are critical to the public welfare from a health and safety point of view. As a result, GRDA employees who (1) are police or peace officers, (2) have drug interdiction responsibilities, (3) are authorized to carry firearms, (4) are engaged in activities which directly affect the safety of others (including those who are in safety-sensitive positions), or (5) work in direct contact with inmates in the custody of the Department of Corrections will submit to drug screening on a randomly selected basis.

E. When GRDA is required by law, such as to be in compliance with existing U.S. Department of Transportation (DOT) regulations, applicants and employees shall be tested in accordance with those requirements.

F. In any situation in which alcohol or controlled substances are detected, GRDA employees will be referred to the State of Oklahoma’s Employee Assistance Program for professional evaluation and/or treatment.

G. Employees shall be subject to periodic random testing for up to 24 months if previously entered into an approved rehabilitation program after receipt of a positive test for drugs or alcohol.

H. Violations of GRDA’s Alcohol and Controlled Substances Policy shall subject employees to disciplinary action up to and including termination.

IV. RESPONSIBILITY: Board of Directors, Management and Employees. The CEO and General Counsel are directed to submit a written comprehensive Alcohol and Controlled Substances Policy for inclusion into GRDA’s General Employment Policy Manual. This policy will contain, among other things, general procedures, policy notifications and affirmations, definitions of prohibited substances, supervisory guidelines, and other related matter.

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.

POLICY NO. 7-5

PROHIBITION OF USE OF TOBACCO PRODUCTS, ELECTRONIC CIGARETTES, AND VAPING DEVICES ON STATE PROPERTY

I. OBJECTIVE:

The Smoking in Public Places and Indoor Workplaces Act, 63 O.S. § 1-1523(A), et seq., prohibits smoking in a public place. That Act defines a public place as an enclosed indoor area where individuals other than employees are invited or permitted. That Act further prohibits smoking in all vehicles owned by the State of Oklahoma and its agencies.

Executive Order 2013-43 prohibits the use of electronic cigarettes and vaping devices on all properties owned, leased, or contracted for use by the State of Oklahoma and all of its agencies and instrumentalities.

The Grand River Dam Authority enacts this policy with the objective to provide a safe, tobacco and chemical free environment, eliminating all tobacco, electronic cigarette, and vaping device use:

A. on property owned, leased or contracted for use by the Grand River Dam Authority (hereinafter “GRDA property”);

B. in vehicles owned, leased or contracted for use by the Grand River Dam Authority (hereinafter “GRDA vehicles”);

C. in aircraft owned, leased or contracted for use by the Grand River Dam Authority (hereinafter “GRDA aircraft”); and

D. in watercraft owned, leased or contracted for use by the Grand River Dam Authority (hereinafter “GRDA watercraft”).

II. POLICY:

A. The use of tobacco products, electronic cigarettes, and vaping devices is prohibited throughout all indoor and outdoor areas of GRDA property, including parking lots, entrances, sidewalks, and other walkways, owned or under the control of the Grand River Dam Authority.
POLICY NO. 7-5 (Continued)

PROHIBITION OF USE OF TOBACCO PRODUCTS, ELECTRONIC CIGARETTES, AND VAPING DEVICES ON STATE PROPERTY

B. The terms "tobacco" and "tobacco products" as used in this policy shall refer to all products made of or containing tobacco intended for consumption including, but not limited to, cigarettes, cigars, pipes, chewing tobacco, snuff, smokeless tobacco, electronic cigarettes, and vaping devices.

C. The terms "electronic cigarettes" and "vaping devices" as used in this policy shall refer to any electronic or other device which simulates tobacco smoking, whether or not it resembles a cigarette, cigar, or any other tobacco product, or any other product packaged for smoking or the simulation of smoking.

D. The prohibition of the use of tobacco products, electronic cigarettes, and vaping devices on all outdoor areas of GRDA property shall not prohibit visitors of Grand Lake and its tributaries, Lake Hudson and its tributaries, W.R. Holway Reservoir, or the Scenic Rivers of Oklahoma from using these products and devices while outdoors, though the use of these products and devices by visitors at those locations is strongly discouraged. Nonetheless, employees of the Grand River Dam Authority are prohibited from using tobacco products, electronic cigarettes, and vaping devices while on Grand Lake and its tributaries, Lake Hudson and its tributaries, W.R. Holway Reservoir, or the Scenic Rivers of Oklahoma and its tributaries while acting within the scope and course of their employment with the State of Oklahoma.

E. The use of tobacco products, electronic cigarettes, and vaping devices is prohibited in GRDA vehicles, GRDA aircraft, and GRDA watercraft.

F. This policy applies to all employees, visitors, and others while on the premises of any GRDA property.

G. At all Grand River Dam Authority locations that share a building or property with other agencies or other entities, the use of tobacco products, electronic cigarettes, and vaping devices is prohibited in the offices of the employees of the Grand River Dam Authority and in other locations that are under the control of the Grand River Dam Authority.

H. Employees of the Grand River Dam Authority are prohibited from using tobacco products while providing services in the scope and course of their employment with the Grand River Dam Authority regardless of their location.
I. Adherence to this policy is mandatory. Noncompliance by an employee will be cause for intervention by management and/or the employee's supervisor and may result in corrective or disciplinary action up to and including termination of employment.

J. Noncompliance by visitors and others will be handled in the following manner: Any nonemployee who is discovered to be using a tobacco product, electronic cigarette, or vaping device on GRDA property or in a GRDA vehicle, GRDA aircraft, or GRDA watercraft will first be asked to immediately cease the use. If the nonemployee refuses to immediately cease the use of tobacco products, electronic cigarettes, or vaping devices, then the individual will be asked to leave the premises. If necessary, the individual may be escorted off the premises by law enforcement.

K. The Grand River Dam Authority is committed to providing support to all employees who wish to stop using tobacco products, electronic cigarettes, or vaping devices. The Grand River Dam Authority is committed to ensuring that its employees have access to several types of assistance, including cessation medications and telephone counseling through the Oklahoma Tobacco Helpline. Supervisors are encouraged to refer employees who wish to stop using these products to the Oklahoma Tobacco Helpline, 1-800-QUIT-NOW.

III. RESPONSIBILITY: Board of Directors, CEO, and employees of the Grand River Dam Authority.

This policy supersedes and cancels all other existing policies and instructions which may conflict with its provisions.

EMPLOYEE EDUCATIONAL LOAN REIMBURSEMENT PROGRAM

I. OBJECTIVE: To promote recruitment, retention, and the professional development of employees by implementing a statutorily created program to assist in payment of educational expenses.

II. POLICY:

A. Criteria

The Authority may provide educational loan reimbursement for employees, provided sufficient funds are available and the following eligibility criteria have been satisfied:

1. Any permanent, classified or unclassified, full-time employee is eligible to participate in the Educational Loan Reimbursement Program.

2. The debt must be a qualified educational loan. A “qualified educational loan” means a debt owed by the employee to any private or public lending institution for which repayment is legally required over a period greater than one (1) year; the proceeds from which were used by the employee to make payment of tuition, fees, or other education expenses, such as books and materials, to an institution of higher learning, including any private college or university for course work to obtain an undergraduate or graduate degree. Loans from individuals do not qualify.

3. The loan must have been incurred prior to employment with the Authority or for educational expenses directly related to employment incurred during employment and for which repayment is legally required over a period of more than one year.

B. Educational Loan Reimbursement Payments

The Authority may make direct payments not to exceed $5,000.00 in any 12-month period on behalf of an eligible employee to any private or public entity for qualified educational loan expenses. The cumulative total reimbursement cannot exceed $15,000.00.
EMPLOYEE EDUCATIONAL LOAN REIMBURSEMENT PROGRAM

1. The Authority will make payments for educational loan reimbursement directly to the lending institution. No payments will be made to the employee.

2. Applications may be approved or denied contingent upon available funding and compliance with program guidelines.

C. Application Process

1. The Employee Educational Loan Reimbursement Program will be administered by the Human Resources Department.

2. Applications for the Employee Educational Loan Reimbursement Program will be accepted as announced by the Human Resources Department.

3. Applicants must complete the Authority's Request for Financial Reimbursement of Educational Expenses form and submit with the required documentation from a qualifying financial institution and the required academic information. Additionally, applicants must complete the Authority’s Employee Educational Loan Reimbursement Program Participant Agreement.

4. Initial approval of an application shall be made by the Human Resources Department. Final approval of an application shall be made by the CEO or the Chief Operating Officer.

D. Service Commitment

1. In exchange for receiving the benefits of the Employee Educational Loan Reimbursement Program, a participating employee shall be committed to a required payback period of 2,000 hours of full-time employment for each $5,000.00 of reimbursement.

2. If an eligible employee on whose behalf payment has been made terminates service with the Authority prior to the expiration of the required payback period, the employee shall be required to reimburse the Authority for the amount of the qualified education loan expense. If the employee performs less than the number of hours of service required for the full amount of the expense paid, the agency shall be reimbursed on a pro rata basis based upon the actual number of hours of service performed by the employee. Nothing in this policy or
program shall be construed to create an employment contract, or create a continued expectation of employment.

E. Termination/Suspension of Program

The Educational Loan Reimbursement Program may be terminated or suspended at any time by the CEO at his sole discretion.

RECORDS MANAGEMENT POLICY

I. OBJECTIVE: To state the policy of the Authority with regard to the management and disposition of agency records.

II. POLICY: It shall be the policy of the Authority to fulfill the above objective by establishing the following policies:

A. The Grand River Dam Authority retains sole ownership of its records. Employees who create the records have no ownership over them and must turn them over intact to the Authority. This policy is to be used as a guideline for the retention, review, and disposal of the Authority's documents and records.

1. All departments are responsible for reviewing and maintaining records according to the Authority's Consolidated Records Disposition Schedule (89-13) which stipulates the minimum retention periods for certain administrative, financial, personnel, and electronic records common to the Authority in accordance with the type of record. This disposition schedule is available at http://www.grda.net/. The schedule is reviewed periodically and modified as needed to remain in compliance with both the State General Records Disposition Schedule and Title 18 C.F.R. § 125.3 Schedule of Records and Periods of Retention.

2. The departments shall identify the records for which they are responsible, maintain and store said records in a practical and cost effective format, and ensure that all disposition requirements outlined in the schedule and this policy are met. Each department must also determine whether their specific circumstances warrant the retention of records in excess of required retention periods. Each employee is responsible for taking appropriate actions to comply with the procedures herein and the Oklahoma Open Records Act for any records in their custody or control.

3. Users of Authority e-mail and instant message services are placed on notice that under the Open Records Act all records that are created by, received by, under the authority of, or coming into the custody, control, or possession of the Authority are public records. Such records include messages stored in electronic or magnetic format. All electronic communications or correspondence, therefore, unless subject to a specific statutory privilege, are subject to production under the Oklahoma Open Records Act, and when relevant, to discovery in civil litigation. There is no expectation of privacy associated with the use of electronic
It may be necessary to view electronic data, records, or information relating to the use of these resources. It shall be the Information Technology Department's responsibility for facilitating adequate accommodations and processes for appropriate storage of electronic media in accordance with these procedures and the Oklahoma Open Records Act.

4. Pursuant to the requirements of the Oklahoma Open Records Act, requests for copying and document review are to be made in writing and directed to the GRDA Legal Department. Such requests are subject to the specifications and charges provided in the Authority's Fee Schedule located at http://www.grda.net/.

5. All departments that wish to destroy Authority documents and records must submit a request to the GRDA Records Management Coordinator on the appropriate request for destruction form located on the Oklahoma Department of Libraries website at http://www.oklstat.ok.us/oar/recordsmgt/forms.htm. No documentation or record may be shredded or destroyed without submitting the proper completed form to the GRDA Records Management Coordinator and receiving prior signature approval from the State Records Administrator.

III. RESPONSIBILITY: Board of Directors, CEO, and GRDA employees

EMPLOYEE AND DEPENDENT AND RETIREE BENEFIT ALLOWANCE

GRDA employees are provided with group insurance through benefits offered by the State of Oklahoma through the Employee Benefits Department, Human Capital Management, Office of Management and Enterprise Services ("EBC"), under a flexible benefits plan. Each employee receives a specified amount as a flexible benefit allowance which is available monthly to purchase insurance benefits. Except for limited circumstances defined in statute where the employee is currently covered by a separate group health insurance plan, employees are required to purchase medical, dental, basic life and disability coverage. Optional benefits including vision, supplemental life and dependent life coverage may also be purchased. Any unused amount of the allowance will be paid to the employee as taxable income. If the cost of the elected coverage exceeds the flexible benefit allowance, the employee must pay the difference.

The GRDA flexible benefits allowance will be calculated as follows on an annual basis and communicated to employees prior to the insurance enrollment period in conjunction with their state insurance enrollment packages.

A. Employee Coverage

The flexible benefit allowance available to all GRDA employees includes One Hundred Fifty Dollars ($150) per month for a supplemental insurance allowance, plus the greater of:

1. The specified flexible benefit allowance determined by the EBC for the plan year for all state employees;

or

2. An amount equal to the 100% of the monthly premium of the HealthChoice High Option plan, the average monthly premiums of the dental plans, the monthly premium of the disability plan, and the monthly premium of the basic life insurance plan offered to state employees.

B. Dependent Coverage

The flexible benefit allowance available to all GRDA employees for their dependents is the greater of:

1. The specified flexible benefit allowance for dependents determined by the EBC for the plan year for all state employees;

or

2. An amount equal to the 100% of the monthly premium of the HealthChoice High Option plan for dependent(s).
EMPLOYEE AND DEPENDENT AND RETIREE BENEFIT ALLOWANCE

C. Retiree Benefits

As authorized by Oklahoma Statutes, GRDA shall contribute Two Hundred Dollars ($200) per month for medical and dental benefits for eligible retirees. This amount is paid directly by GRDA to the Office of Management and Enterprise Services. This contribution shall not be made for beneficiaries, survivors or directly to the retired member. "Eligible retirees" as used in this policy, are those employees who have retired from GRDA, without subsequent employment with any other agency of the State of Oklahoma, and are receiving monthly retirement benefits from the Oklahoma Public Employees Retirement Plan or the Oklahoma Law Enforcement Retirement Plan. A GRDA employee who ends employment with GRDA and is subsequently employed with another state agency, and then retires while employed at a state agency other than GRDA shall not be eligible to receive the GRDA premium contribution as described in this paragraph.
